

SAFETY OF CAIRO TO BE DECIDED TODAY

Weather Floods are to Be
Held In Bounds Will Soon
Be Decided

MISSISSIPPI IS RISING

Mississippi Which Has Been
at Low Stage is Rising Be-
tween St. Louis and Cairo

WABASH ONLY RIVER FALLING

CAIRO, ILL., APRIL 4.—H. A. Wheeler, an engineer in charge of the Point Pleasant, Mo., levee, 70 miles down the Mississippi river, telegraphed tonight to the Cairo weather office that the embankment there had gone out. If this is the case a valley 20 miles wide by more than 100 long will be flooded and the situation here materially relieved. The current in the Ohio is greatly increased.

CAIRO, ILL., APRIL 4.—Conditions throughout the Ohio river basin, weather and otherwise, as reported to the weather bureau tonight made it appear to the people here that the question as to whether the flood waters at this point are to be held within bounds will be decided within twenty-four hours. Certain of these conditions did not savor of encouragement for Cairo. With the crest of the flood only a short distance upstream rain was reported as universal in the territory drained by the Ohio and its tributaries. Only one important river, the Wabash was reported falling. Both the Cumberland and the Tennessee were said to be rising.

In addition the Mississippi which has been at low stage is rising between Cairo and St. Louis. This fact is looked upon as possibly the most serious of all because the Ohio needs a free outlet to prevent backing-up of waters on the levees here.

Tonight the river gauge stood midway between 54.7 and 54.8, or 5-20 of a foot from the top.

Strong Northwest Wind.
A strong wind sprung up from the northwest and it was the prediction that it would continue. The river now two miles or more wide at this point was lashed into waves which washed hard against the reinforcement work on the top of the levee wall.

Summing up all these conditions it was the general opinion that if tomorrow can be weathered without disastrous result the battle will be won. Observer Lindley's forecast tonight was that it was unlikely that the flood waters would go higher than 55.5. This stage it is thought now can be controlled, though additional sand bagging and bulkheading will be needed at the north end where there is no wall.

Already, seepage water stands up to the ground floor of several cabins in this section, but its rise is prevented by the continuous work of powerful electric pumps. Along the river there also, the levees are narrow and high, the surface of the water standing from 18 to 20 feet above the street level. With the crisis at hand here, Mound City, Ill., which has been momentarily threatened with an overflow was forgotten for the time today. Word from there tonight is to the effect that the levee is holding strong thus outwitting the predictions of old-time river men. The strength of the levee is attributed to the character of the soil which is said to be of the gumbo variety.

Receive First Mail.
Cairo received its first mail tonight since Tuesday. It was brought in a boat from Mounds, through the drainage district.

Ensign A. R. Pieper, of the naval reserves and his men for two days have been doing heroic rescue work along the Mississippi river according to his report on his return here tonight. The report showed that 142 persons suffering from hunger, exposure and in some instances sickness, had been rescued from points in Kentucky and Missouri. Two women, three babies and two men were suffering from pneumonia or typhoid. Most of them had not had food for two or more days. The reserves had not taken sufficient food to last them for so long a trip and for their own use killed chickens which they picked up in the flooded territory. They also took to places of safety many cattle and other livestock.

Just when the train service will be resumed into Cairo has not been determined. It will be several days however.

Building Temporary Track.
Illinois Central trains are now able to come as far south as Mounds and scores of men are at work driving piling and lying cross-timbers

PROGRESSIVES HOLD THEIR FIRST CAUCUS

NOMINATE VICTOR MURDOCK OF KANSAS AS CANDIDATE FOR SPEAKER

Conference Also Went on Record As in Favor of a New Standing Committee of the House to Consider Woman Suffrage Question.

WASHINGTON, APRIL 4.—At its first caucus, held this afternoon, the Progressives, or third party organization in the house, nominated Representative Victor Murdock of Kansas as the candidate for speaker and perfected plans for an aggressive active campaign. Fifteen members of the house attended the conference and the affiliation of four more members who have not yet reached Washington was announced. The new congressmen were accorded abundant applause by spectators as they denounced both Democratic and Republican parties, "bossism," "standpatters" and "special privilege" and lauded Progressive principles and Theodore Roosevelt. An expected "keynote message" from Colonel Roosevelt failed to materialize.

Representative Rupley, Temple, Walters, Lewis, Hutchins and Kelly of Pennsylvania; Bell and Stephens of California; Murdock of Kansas, Hinebaugh and Copley of Illinois; Bryan, of Washington; Lafferty of Oregon; Chandler of New York and Lindbergh of Minnesota. Those recorded but not present were: Falconer of Washington; Woodruff of Michigan; Nolan of California and Thomson of Illinois.

The caucus adopted a resolution declaring that its action was not binding upon the members attending, but that each member was free to support Progressive measures, appearing in the house from any source.

After a lengthy discussion in the course of which Mr. Murdock declared that the Progressives were entitled to representation on the important house committees not only because of their numerical strength in the house but also because of the large Progressive vote cast for the party in the presidential election a committee was appointed to consult majority Leader Underwood about Progressive assignments.

Mr. Murdock said he expected 30 or 40 committee places for Progressives.

A legislative committee composed of Representatives Kelly, Chandler, Copley, Bell and Lindbergh was appointed to frame the legislative measures which will form the Progressive program. Progressive members will meet next Tuesday with Dean Lewis, of Pennsylvania university, Jane Addams, Gifford Pinchot, Walter Weyl, and other members of the legislative committee of the national Progressive party to consider the legislative program.

The conference went on record as in favor of a new standing committee of the house to consider woman suffrage question.

HELD FOR SANITY INQUISITION
Springfield "Professor" Held on Petition Filed by John E. Bretz, a Contractor.

Springfield, Ill., April 4.—"Professor" L. V. Von Horebeke, debonaire teacher of French, was arrested today and is held on a petition filed in the county court for an inquisition as to his sanity. Petition was filed by John E. Bretz, a local contractor, who charges that the "professor" has been paying unbidden attentions to Mrs. Bretz, which the latter has resented in vain. J. B. Barnaby, a local teacher of music, is also named as a witness against him.

Von Horebeke protests "it is persecution. He is well known to visitors in Springfield because of his voluntary political speeches in hotel lobbies for many years. Recently he has been amusing house and senate members with recess addresses from the galleries.

WOULD CREATE FEDERAL DEPARTMENT OF PUBLIC WORKS

Department Would Have Charge of All Public Works of Irrigation, Drainage, Reclamation and Similar Enterprises.

Chicago, April 4.—A new federal department to be known as the department of public works would be created by a bill to be introduced in congress by Isham Randolph, former consulting engineer of the Chicago drainage district. The department would have control of all public works of irrigation, drainage, reclamation and similar enterprises except those connected with military work.

KILLED ATTEMPTING TO FLAG RAILROAD TRAIN
Joliet, Ill., April 4.—Joseph Bowers, a hunter, was killed here today while attempting to flag a railroad train. He is the fifth sudden death in his family within a year. His son was killed in a mill and his wife took an overdose of medicine.

ISSUES BANK PERMIT.
Springfield, Ill., April 4.—State Auditor Brady today issued a permit to charter the Bourse Trust & Savings bank of Chicago with a capital stock of \$2,500,000. The duration of the charter is 99 years. The first board of directors: R. Power, P. A. Ylertsen and C. A. Gordon.

TARIFF REVISION BILL COMPLETED

Final Decision Upon the
Sugar Tariff Will Com-
plete Tariff Bill

MODELLED BY WILSON

Measure Has Been Modelled In
Accord With the Ideas
of the President

TARIFF LEADERS TO CONFER

WASHINGTON, APRIL 4.—The Democratic tariff revision bill is completed tonight, with the exception of a final decision upon the sugar tariff. From beginning to end it is a measure modelled in accord with the ideas of President Wilson, with wool, meats and many other footstuffs, and clothing materials on the free list with low duties upon all agricultural products and foodstuffs that are not free; and with the tariff on chemical, steel and other commercial products cut far below the present protective rates.

The senate tariff leaders today asked for an opportunity to study the bill until Sunday afternoon. They will then confer with Chairman Underwood of the house committee on ways and means, and later will have a final conference with President Wilson. A careful analysis of the senate bill will be made in the meantime to determine whether free wool, "one cent sugar" and low rates on "market basket" products, will prove acceptable to a majority of the Democrats. Briefly summarized, the tariff developments of the day were:

Ultimatum to Sugar Interests.
President Wilson's ultimatum to sugar interests that they must agree to a tariff of one cent per pound for three years with free sugar after that time, or he would attempt to secure free sugar at once.

The completion of the bill by the ways and means committee, with the exception of the sugar schedule. On this, the committee is prepared to agree on free sugar if the president insists. Income tax rates fixed at one per cent for all corporation income above \$5,000. One per cent on personal incomes from \$4,000 to \$20,000; 2 per cent from \$20,000 to \$50,000; 3 per cent from \$50,000 to \$100,000; 4 per cent above \$100,000.

The president submitted his proposal on the sugar tariff to Representative Brunsard of Louisiana early in the day. Louisiana senators and representatives conferred throughout the day, but had reached no decision tonight however, as to the course they would take.

Notwithstanding the sugar controversy events so shaped themselves today as to indicate that the house, the senate and the president will come to a definite and final agreement upon the tariff bill before Monday; and that the measure will be presented to the house early next week as an administration measure and with all tariff leaders behind it.

After a short meeting of the Democratic members of the finance committee today, Senators Simmons, James and Hughes called on Mr. Underwood, and discussed the wool, sugar and agricultural tariffs. A demand from some quarters in the senate for an increase in the agricultural duties and a doubt as to the success of both free wool and free sugar in the senate, constitute the problems over which the senate leaders will work tonight and tomorrow.

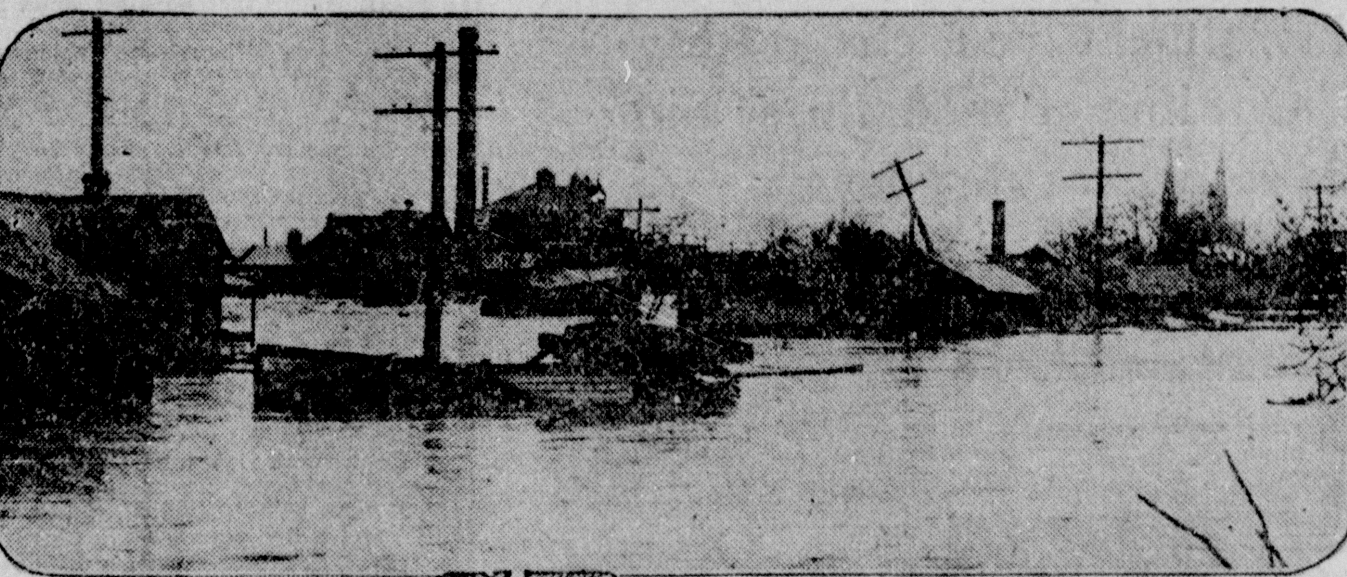

In Hands of the President.
The house tariff makers have left matters entirely in the hands of the president. Members of the senate finance committee today declared there would be an ultimate agreement with the president over all contested points. It is understood that unless the sugar compromise, is accepted by the senators from southern states, the finance committee probably will act on its own initiative, and comply with President Wilson's desires.

The situation as it has developed this week is apparently a consummation of a plan laid out by the president and the house and senate leaders to bring the executive department and both branches of congress into an agreement upon the tariff revision before the new bill leaves the custody of the committee that has drawn it. Leading senators predicted today that there would be no important point unsettled when the bill is introduced in the house.

Expect Few Changes.
This situation, unique in tariff history of recent years, is expected to greatly shorten the tariff required for the passage of the tariff bill, and to reduce to an unusual degree the congressional debate and amendment

CONFERRED WITH SEC. LANE
Washington, April 4.—Aaron Aaronsohn, head of the Jewish agricultural station in Palestine, who is in the United States at the invitation of the agricultural department for consultation on farming problems, today conferred with Secretary Lane on means to control the Mississippi and Ohio to prevent floods. Mr. Aaronsohn offered several suggestions which impressed the secretary, who will discuss them with the president.

Pictures Taken Throughout Flood Districts of Ohio Tell Appalling Story of Great Disaster.

Photos copyright, 1913, by American Press Association.

Flood scenes throughout Ohio have offered rich opportunities to camera men, and the latter have not been found wanting. From every point in the submerged, water swept and wreck scattered districts have come remarkable photographs telling the outside world of the appalling plight that has befallen Ohio's people. Above, at top, is shown a striking general view of Dayton, presenting scenes of houses almost entirely submerged by water. The lower picture shows the wreckage piled up at Columbus, O.

FOX RIVER REACHES DANGER STAGE AT ELGIN AND AURORA

Water is Nine Inches Higher Than
Previous High Water Mark at
Elgin—River Rising at Aurora.

Chicago, April 4.—Fox river which flows through the cities of Aurora and Elgin, reached a dangerously high stage today. At Elgin the water is nine inches above the previous high water mark, and a bridge and a dam near the city are reported washed out. At Yorkville, twelve miles below Elgin, another bridge is said to have been washed away. Persons living in the river bottoms have fled from their homes. At Aurora the water gauge showed five inches below the danger mark and rising.

The relief committee of the Chicago association of commerce which has raised nearly \$300,000 for the Ohio and Indiana today pledged \$50,000 to aid flood victims in Illinois.

No Danger at Joliet.
Joliet, Ill., April 4.—Examination of the Des Plaines river between Joliet and Lockport was made today by the state senatorial investigating committee. Employment of engineers to make an expert report was received by the committee and it is said that the state may expend a large sum in improvements to safeguard neighboring property.

Several sanitary district officers, with Chief Engineer Cunningham of the Wabash railroad, made a trip over the drainage canal from Willow Springs to Joliet today. The Lockport and Butterly locks were inspected and the situation pronounced without danger.

MILTON POSTOFFICE ROBBED.
Milton, Iowa, April 4.—The post-office here was entered early today and the safe robbed of more than \$1,000. The robbers are supposed to have come to Milton on a hand-car and left by the same means. The sheriff at Keosauqua was notified and when he reached Mount Sterling, arrested a stranger who had just bought a ticket to Moulton. The stranger was taken into the ticket office and searched. He had \$300 and about \$1,000 in stamps on his person.

CONFERRER WITH SEC. LANE
Washington, April 4.—Aaron Aaronsohn, head of the Jewish agricultural station in Palestine, who is in the United States at the invitation of the agricultural department for consultation on farming problems, today conferred with Secretary Lane on means to control the Mississippi and Ohio to prevent floods. Mr. Aaronsohn offered several suggestions which impressed the secretary, who will discuss them with the president.

MRS. OLSON ADMITS ILLICIT RELATIONS

WIFE OF PROFESSOR ON TRIAL FOR
MURDER IS PLACED ON STAND

Had Confessed to Husband That Darling Had Superhuman Power Over Her and Had Hypnotized Her—Olson Enacts His Part of the Tragedy.

ST. PAUL, MINN., APRIL 4.—With quivering and uncertain voice, Mrs. Lillian Olson, wife of Prof. Oscar Olson, took the witness stand late today and admitted having had illicit relations with Clyde N. Darling, for whose murder Olson is on trial.

"I told Darling that I was not a bad woman and begged him to discontinue his visits to our home, but he persisted in coming, and when he pressed me closely in his arms I could not resist," Mrs. Olson testified.

When her answer to questions asked by chief counsel for the defense became so low that they could not be heard by the jury and she swayed as if on the verge of collapse, an adjournment was taken.

Shoving and jostling one and another in a frenzy of eagerness to gain advantageous positions in the court room, women rushed through the entrances when they were reopened after noon adjournment. Dresses were torn and hats knocked every way. Police were called to handle the crowd.

The state rested its cross examination of Prof. Olson at 5 o'clock this afternoon, but he may be recalled. The defendant repeated details of their home life and told of the pain both he and Mrs. Olson had suffered because of her relations with Darling.

Olson's Testimony Dramatic.
When asked by County Attorney O'Brien to give an exact statement of his wife's confession to him, which preceded the shooting of Darling, Olson's voice failed him but soon he recovered and continued:

"My wife told me: 'Darling has a superhuman power over me. I cannot resist him. He takes me into his arms and looking into my eyes he tells me he loves me and hypnotizes me. I am afraid of him. Please keep him from me.'"

Before completing his testimony Prof. Olson enacted his part of the tragedy. Grasping the same revolver with which he killed Darling and fairly shaking with emotion, Olson

JAPAN MAKES FORMAL PROTEST AGAINST PROPOSED LAWS

Lodges Protest With State Department Against Proposed Enactment of Alleged Anti-Japanese Laws by State of California.

Washington, April 4.—The Japanese government has lodged formal protest with the state department against the proposed enactment by the state of California of what it considers anti-Japanese legislation, the measure prohibiting alien ownership of land in California.

It was learned today that this protest was made nearly a fortnight ago. Secretary Bryan and Viscount Chinda, the Japanese ambassador, were closeted for half an hour today at the state department in a private conference, the subject of which neither would discuss.

It is known that Secretary Bryan is giving close attention to this delicate subject, studying carefully the history of the negotiations that took place between Secretary Root and Baron Takihira in the Roosevelt administration, when a severe strain was placed upon the relations between America and Japan by the attempt of the California authorities to exclude Japanese children from the public schools. The next step may be a communication from the secretary of state to the governor of California calling his attention to the international questions involved in the proposed actions of the legislature.

SENTENCED FOR BURGLARY.
Hammond, Ind., April 4.—William J. O'Connor of Pueblo, Colo., was sentenced here today to serve eight years in the state penitentiary for burglary. O'Connor while in court received a letter from his mother, who did not know of his plight, begging him to come home and give up his evil companions.

**WEATHER INDICATIONS
AND TEMPERATURES.**

Washington, April 4.—For Illinois: Fair and somewhat warmer Saturday; Sunday fair, moderate variable winds.

Temperatures.
Chicago, April 4.—Current, maximum and minimum temperatures today were:

	Current	High	Low
Boaton	40	40	38
Buffalo	38	60	44
New York	54	62	42
New Orleans	68	76	68
Chicago	41	48	40
Detroit	38	60	40
Omaha	50	56	40
St. Paul	46	48	30
Helena	42	52	28
San Francisco	54	62	52

INCREASED ALARM FELT AT MEREDOSIA

Water Started to Wash
Over McGhee Levee
Last Night

HOPEFUL OF SAVING DIKE

Raise of Two Inches In River
Friday Drives Several More
Families From Their Homes

LIEUT. HARMON'S FLOOD STORY

Friday witnessed a raise of approximately two inches in the Illinois river, causing increased alarm among those working on the levee across from Meredosia, compelling thirty more families to abandon their homes in Beardstown and several more to leave their residences in Meredosia.

Last night the water started to wash over the top of the McGhee levee across from Meredosia, at a point about four miles north of the Wabash tracks, and a large filled with sand bags and being held for emergency use was rushed to the place and it was thought that the men would be able to keep the water out.

The water has completely filled the lowlands that were protected by the Meredosia levee that broke Thursday and the town is surrounded by water. Water has started to go into the light plant, which is near the river banks and the plant has been closed down. Trains have not been seriously affected and are still running, but some farmers who reside about three or four miles north-east of the town, who were hoping to escape, have been compelled to move. Two families moved Friday and three expect to move today.

Reinforcements Ordered Out.
More aid was asked of Adjutant General Dickson Friday morning and in response company M, fourth regiment, of Champaign and the remainder of the men of company B, and company F, were ordered out. Colonel Wood of Quincy has been ordered to take personal charge of the situation and he arrived at Meredosia last night. Two thousand bags were sent with tents and rations for the guardsmen.

Captain Owen, who is with company B at Meredosia received the following message from Adjutant General Dickson Friday morning: "You will at once direct remainder of your company proceed home station to Meredosia."

"Dickson, A. G."
In compliance with this order Lieut. W. T. Harmon and Quartermaster Sergeant L. P. Burke returned to this city Friday night and will gather the remaining men of the company at the armory this morning. Lieutenant Harmon said last night that all of the men were expected to report at the hall not later than 10 o'clock this morning and that they would go to Meredosia this afternoon at 5:15 o'clock.

Rations Distributed at Naples.
At Naples enough rations were issued to 157 people to last them for a week Friday by Mr. Fisher of Springfield. A committee of citizens consisting of John M. Ritter, A. E. Savoie, Martin Hall, Thomas Bentley and Jesse Mappin, took the names of the needy and the rations were issued to those who are homeless and have no regular income.

A rise of 1 1/2 inches in the river was recorded at Naples and the water is now on a level inside and outside of the levee. The water is splashing up on the concrete walk on Front street, facing the river, but most of the stores were open Friday, although the people had to come from their homes in boats.

Quite a number of the residents have moved from their homes to the schoolhouse, about 20 government tents are in use and some of the people are being cared for by those whose residences are outside of the flood belt.

The Wabash tracks from Naples to Valley City are covered with water, but this has not yet stopped the trains. A man walks the tracks ahead of all the trains that go through, to see that none of the track has been washed away, and laborers are at work putting rocks and sandbags on the ends of the ties to hold the track in place.

According to old residents the water lacks but a few inches of reaching the high water mark of 1844, and is now higher than at any time since then. In speaking of the situation Friday night W. G. Pine stated that everyone in the town is quite comfortable and being well cared for, that the mail service is quite regular and the telephone service good.

More Are Forced to Move.
At Beardstown about thirty more families were forced to move on account of the raise in the water at that place Friday. The water is now backed up to within 200 feet of the

That's Good.

JAS. MCGINNIS & CO

Dr. Rowe was in favor of more light and of the bond issue. He said the broader question of municipal ownership was underneath and behind this proposition and that he did not want to see this city compelled to turn to a corporation for its lighting. He spoke of the need of handling the pending franchise matters in a new way to secure the greatest good for the people and said that to postpone the light bond question until after utility matters are settled would be a mistake. He suggested that if a light plant was erected and not properly managed that citizens could unite and select other officials but that if the traction company had officers who handles its affairs in a way locally unsatisfactory that nothing could be done about it.

Dr. Baker although not referring to the local officials spoke of the general failure of municipal government as compared to state and national government. He thought the present an opportune time to deal with the McKinley people about franchises while the local light plant issue is unsettled. He also spoke of the possibility of larger tariff reductions on metal and machinery at an early date and thought it might be economy to wait.

Dr. Cochran was in doubt as to the best course to follow but was in favor of more light. He told of having been lost on the streets of Jacksonville several nights because of the darkness prevailing from lack of adequate lighting facilities.

Mr. Hairgrove on Franchises.

W. N. Hairgrove said among other things "I have long been a believer in municipal ownership. When I became city attorney I began working with the late C. W. Brown in an effort to frame utility franchises which would give to the city what justly belonged to it. I provided for cheaper gas and electricity, for price regulation in five year periods and for an option purchase clause but the franchise did not meet with the approval of the majority of the commissioners. Others were considered prepared mainly by the traction people. They naturally looked after their own rights. The utility companies are getting something for nothing here in Jacksonville and the people are paying the bills. Down in Waverly the rate on electricity is 7-1-2, while in Jacksonville it is 15 cents. I honestly tried hard to get something for the people but I was farther away at the end than I was in the beginning and so I quit. I am opposed to this light bond matter because this is not the right time to bring it up and because the city is too badly in debt to attempt it. The city will be helped more by saving its money and attempting to put it on a basis where employees can be paid each month. What the people should have is utility franchise which protect their rights."

Mr. Gause asked if the people could not get franchise ordinance placed on passage by initiative without going before the council and Mr. Hairgrove said that the people had such a right.

Commissioner Newman said he was the only commissioner who had voted against the light bond ordinance and that he did so because he thought this was not the right time to vote on it and that there were possibilities of getting power at less cost. He believed the franchise matters should be settled first. He advocated lower gas and electric rates for consumers, was opposed to the coliseum idea and suggested a three per cent payment for the franchises by the utility companies on their gross earnings.

The Tax Cost.

W. C. Howe said that there was too much talk about the franchises and that the bond issue was being overlooked. He said that he was in favor of more light and of getting it now and not waiting to thresh out other franchises. He said that he paid \$71.13 taxes this year and that he had figured out that if the light plant were built that the additional cost to him for interest would be 7 1/2 cents and that by adding \$1.43 to his yearly taxes that both principal and interest would be paid in twenty years. He described the whole light plant and equipment as obsolete and expressed his confidence in the commissioners. He said that if the people were afraid the commissioners would squander the money, that they could elect a vigilance committee of fifty to go down and watch them.

F. H. Bode talked about the great question of municipal ownership and dwelt upon the vast importance of this question to the people. He said that the building of the light plant was insignificant in comparison with the underlying question and suggested that if the commissioners were not to be trusted with the erection of a light plant that they certainly could not be trusted with the larger problems of franchises. His intention was to point out how much more is involved in the franchises than in the light plant. He said he had never met Mr. Brennan until yesterday, but believed him sincere and believed Mr. Newman to be wholly honest. The other commissioners he had never met.

Mr. Spaulding's talk was of the vast importance of the municipal ownership. He told of the unfair methods disclosed in the operation of the utility company in Springfield. He did not touch upon the local situation except in pointing out the danger of letting a utility company get a hold on the municipal lighting business.

H. J. Rodgers said there would be some advantage to the city in having a plant with reserve power in dealing with the utility companies, but was inclined to the opinion that the commissioners should not plan so large an improvement now. He thought that too much reserve power was asked for. He favored incandescent lights for the streets and some changes in the machinery, which would cost about \$19,000. He expressed the opinion that the improvements contemplated would cost the amount estimated.

Bernard Gause presented his argument for the plan in writing, as outlined below. The points he mentioned formed the basis for much of the argument later.

The Need of Light.

I believe that our city at the present time is in greater need of "improved lighting system" than any town I know of in the state of Illinois of any where near its size, and street lighting is one of the very necessary public services we must have for so many reasons that it is hardly necessary to enumerate at this time, as I believe that we all agree upon this one proposition that Jacksonville does need the improvement it is fast becoming in many parts of the city an absolute necessity, compare the illumination of your business district with many of the villages close here and see how far behind we have gone. It is the fact that some seem to disagree with the method of obtaining immediate relief that I wish to speak upon more than the information in my possession with reference to the present plan, I assume that those who do not favor the "proposed bond issue" are men honest in their opinions and seeking to possibly serve the best interests of the city just as much so as I am in that case we can both present our opinions honestly stated as we know them. The voters are the final judges.

As near as I have been able to learn three principal reasons have been advanced against the proposed bond issue but each case man will find it admitted that a new lighting system is needed. One objector states that we should not vote the bonds until we ascertain if it is not possible for the city to build a private corporation who will build the plant upon a plan such as was done in Springfield a number of years ago now in order that we may thoroughly understand what this plan was and how it would operate in this city. I will briefly outline the facts. Springfield's city council found that like most every other city of any size lighted by a private corporation that it was impossible to secure a rate per lamp that was a reasonable price for the reason that a private corporation need not concern itself about a low rate when an immediate substitution for its service cannot be obtained and so they are in a position to stand pat as it were which they invariably do. Springfield at that time if I am correctly informed was not able to vote a bond issue sufficient to construct a municipal plant, and an arrangement was made to form a new corporation to engage in commercial lighting and the city paid \$60.00 per lamp for each lamp for such period of time. This company after it was allowed interest on its investment had a profit sufficient to pay back to the investors the amount of money they invested in the plant, the city then became the owners of the plant for the municipal lighting, it required about 5 years to do this in Springfield.

Figuring on Cost.

Now let us figure out how this would work out here to give this city the contemplated lighting plant it would require 250 arc lamps or their equivalent at \$60.00 per lamp for period of 5 years, the city would have paid out \$150,000. Now let us take the present bond issue and add to it the cost of operating the plant for the same period of time and it has never cost over \$8,000 per year for running the present plant when it had 297 lamps, almost a 100 per cent over-load which an engineer will tell you is the most expensive method of running machinery, this make a total outlay for five years of \$90,000.00 or \$15,000, in favor of the proposed bond issue. It is hardly necessary for me to add that a corporation with more than a half a million invested would sit by idly and see their consumers leave them one by one to support a new enterprise until they were removed from the field, you know what they would do, make such price for current that such a commercial plant would be a failure from the start.

This is a service that it is impossible in the majority of cases for a person to divide his trade, you can't use current from two companies at a time, as I see it the Springfield case would not work out here. And I further doubt if you could interest local capital to that extent.

The second proposition that is offered as an objection to the present bond issue comes from others who hope that current may some time in the future be delivered from the Keokuk dam, and in this connection I want to read you a letter which was written to this company last May, also last November and January of this year by the Jacksonville Business Men's association in their effort to see if we could hope to ever secure their service for this city.

Keokuk Not Offering Power.

I want you to note that these communications were passed before the present bond issue was brought up by the city commissioners: Jacksonville, Ill., Nov. 22, 1912. Keokuk Light & Power Co., Keokuk, Iowa.

As a representative of the business interests of this city I am writing you to ascertain if it will be possible for your company to furnish electric current for light and power for this city. I would like to know the rates you expect to offer and any other information which you could give in this connection in order that we may have an intelligent understanding of your proposition. I trust we may hear from you promptly and remain, Yours truly,

Jacksonville Business Men's Ass'n. To which they replied as follows: Keokuk, Ia., Nov. 28, 1912. Jacksonville Business Mens Association, Jacksonville, Illinois.

Gentlemen: Your favor to the Keokuk Light & Power has been referred to the writer, and replying would say that we have not contemplated up to the present time, extending our service into the territory of the state as far as Jacksonville, but are rather undertaking to develop the territory immediately adjacent to our main transmission lines up and down the valley.

Pure Foods That Will Tempt Any Appetite Can be Found at

ROBERTS BROS.

Green Goods

Fresh Rhubarb, 10 cts.	Red Radishes, 2 bunches 15c.

First Quality Country Dressed Chickens

Oranges Ripened on the Trees

The memory of ELEPHANT ORANGES still lingers if you have ever had them. They are delicious in all that the word can imply. Delicious means that they are ripe, juicy, sweet, rich in their flavor and free from the pithiness which mars many oranges. Try Elephant oranges and you will know why we are enthusiastic about them.

PHARMACY DEPARTMENT

The worst cold can be cured in one day by ROBERTS' COLD TABLETS. A harmless, pleasant tablet that never fails. Easy to take and acts as a mild laxative. Order a box today only 25c. ROBERTS' ALMOND CREAM applied before and after exposure keeps the skin soft and smooth. This is our leading toilet preparation and we guarantee it to you. It is not sticky and greasy and men find it valuable after shaving. Reliable and Pure. Large bottle, 35c. Keep the chaps away.

Roberts' Tar and Wild Cherry Cough Syrup. A favorite with the children and very effective in deep bronchial coughs of old people. Entirely free from harmful drugs and safe to use on children. Made by us and guaranteed to you. Its pleasant taste will appeal to any stomach. Two sizes 25 and 50c.

Don't take injurious headache tablets. Billious and nervous headaches are cured without danger with Roberts' Headache Wafers. The best way to take medicine and the safest way to get well. Trial sizes, 10c. Large box 25c.

20 SOUTH SIDE SQUARE

PHONES 800.

Very truly yours,

J. A. Trawick, Mgr.,
Mississippi River Power Co.

We were never able to secure any encouragement for securing this power for this city and this company frankly states they will not enter this field. Now what hopes can any one base the future lighting of this city from that source when the company themselves so frankly say they will not come here.

During my official connection with four business men's organization we constantly tried to promote this service for our city even in view of the statements to the contrary, hoping that we might induce them to change their plans, calling their attention to Springfield, Decatur and so many other towns they could reach from this point, but they have consistently declined to give any encouragement.

To mind, this completely eliminates the possibilities of securing current from this source.

Reason Number Three.

Now for the third reason that has been offered as an objection against this "bond issue" by those who believe that the McKinley syndicate can well afford to furnish current free for street lighting in lieu of the renewal of their franchises. I am strictly opposed to any such a proposition, for this reason, that it is in the first instance an unjust taxation upon the consumers of gas and electricity to allow this corporation to collect from them such an excessive rate as would include the lighting of our public highways. This is a just tax, which should be distributed between all property owners of this city. The rates for gas and electricity should be as low as they can be possibly made in order that all the people, regardless of their station in life, can enjoy their convenience; it is my idea that any franchise which is granted to this corporation should be equitably based that it will forever be impossible for this company to be enjoying dividends from capital which the consumers have been forced to pay over and above a reasonable profit. I am against a government of exploitation; we have passed that age you will recall Monte Carlo as one of these present examples, you can transplant such a system here under the name of franchise or anything else. When you say that his corporation can afford to include the lighting of our streets for this franchise, I want to tell you that I know that it will cost them more than \$50,000 to rebuild their plant to take on this work and that means that under present conditions these franchises are worth more than \$15,000 per year over and above a reasonable return upon the investment and to mind this excessive amount would belong to the people who contribute it and they should be relieved from that unjust burden by a material reduction of the rates.

I know and have known for more than six years of the condition of the present municipal plant. It is not the result of mismanagement, we face the present proposition; it is the inheritance of old age dissolution, which takes place after long and continued years of service. Humanity as well as machinery finally comes to this, and men in charge of our municipal affairs are asking that you vote this bond issue in order that your streets may remain lighted by your own light plant.

I have made an estimate based upon the proposed work and I do not think the amount excessive, and what if it were? they cannot issue bonds for any more than the work actually costs; they are compelled by law to advertise for bids, open them in public, for each and every amount in excess of \$500. I for one am willing to trust them.

Would Not Raise Taxes.

By voting the present bond issue you will not raise your taxes, for the reason that the statutes of the state provide for a maximum tax for all purposes and we have been collecting that for some time.

This is not a question of where our friendship or enmity for the men who govern this city should enter into this subject. Speaking for myself, you all well know that I have no connection with the present city administration in any capacity, I frankly state to you that I am under no personal obligations, and the interest which I take is that of a private citizen, and so I reason this proposition from the standpoint of my own personal experience; to this effect that the only times I ever got swindled in my life was when I thought I was getting something for nothing. You will never light this city for nothing either; some one will pay for it. Neither can you build a city on wind; every progressive city in our land are monuments to the sacrifices and patriotism of its citizenship. If you vote this bond issue and the light improvements are made I believe that it will do more than any one thing that has been done the past five years to make this city look upwards, and I likewise believe that it will more than add its cost in increased value to your city real estate.

I am in favor of each and every public utility being owned and conducted by the people, just as fast as they are ready to take them over. It has been the indifference of the people to things which are of a public nature that has made municipal ownership undesirable. If every voter in the city would take a sufficient amount of interest in helping your city commissioners with their counsel and advice they would seldom fail to be right in their conclusions. The man who stands on the street corners and discounts the good intent of every act is a detriment to the growth and progress of his own home city. When I look back over the past I recollect of mistakes that have been made by bankers, lawyers, doctors, clergymen, mechanics, laboringmen, women and children. Show me the infallible person and I will show you a fellow who has the world outclassed. It is not to be supposed that just because a man has been taken from private life and elected to a public office he immediately becomes a Solomon. The men who represent us in our city government are just men after all and they will succeed or fail in proportion to the amount of support they receive from us. I have confidence in their good intent and in the commission form of government law and for this reason I am going to vote for this bond issue, and I believe that our progressive citizens are going to do the same.

Farm workers will find at Knoles' an extensive line of shirts, overalls and gloves.

LAST CHANCE TO BUY LOTS.

This is your last chance to buy the beautiful lots that will be sold this afternoon at 2:30 at your own price on the premises of the old Morrison homestead. Don't forget, we are going to sell them this time regardless of what they bring.

THE NEWEST in young men's models for spring is the SINGLE BUTTON two-piece check suit. Some think well. Call and see it.

Dr. H. L. Griswold visited with relatives in White Hall Friday.

E. A. Walbaum of Pleasant Plains was in the city Friday on business.

Miss Suanne Hopper of Sinclair was shopping in the city yesterday.

William Floreth spent Friday in Peoria, where he went on business.

William Kaden of Peoria was a business visitor in the city Friday.

Mrs. Edward Tindall of Arnold was shopping in the city yesterday.

Mrs. Abe McCullough of Lynnville was shopping in the city yesterday.

Mr. and Mrs. James Corrigan of New Berlin were visitors in the city Friday.

Grape fruit, 5c a piece. T. L. Cannon, red front, 217 S. Main St.

P. A. Sturgis of Franklin was transacting business in the city yesterday.

Mrs. W. E. Barrows of Waverly was among the shoppers in the city yesterday.

Mrs. Charles Telle of Waverly was among the shoppers in the city yesterday.

Edward Laurie from the vicinity of Savage station was a visitor in the city Friday.

George Newenham was a business visitor in the city yesterday from Mt. Sterling.

George Hoagland from northeast of the city was a business caller here yesterday.

Mrs. John Henry of Woodson was among the ladies shopping in Jacksonville Friday.

J. C. McBride of the Tomlinson store was detained at home Friday by indisposition.

Herman Shoemaker of Buckhorn was among the business callers in the city yesterday.

Miss Ione Gallagher of Woodson was among the out of town visitors in the city Friday.

N. A. Brannon of the Hillerby store was detained at his home Friday by indisposition.

Mr. and Mrs. Godfrey Tendick of the Point neighborhood were trading in the city Friday.

Mr. and Mrs. J. H. Campbell of rural route No. 1 were among the shoppers in the city Friday.

H. E. Sevier, representing the Keokuk Dental Supply company, was in the city yesterday on business.

Grape fruit, 5c a piece. T. L. Cannon, red front, 217 S. Main St.

M. R. Davis expects to go this evening to Griggsville to spend a few days at the home of his parents.

Miss Ethel Challan of Waverly is spending a few days with Mr. and Mrs. F. S. Sturgeon on Howe street.

Miss Bessie Emmerson has gone to Beardstown to visit at the home of her brother, C. C. Emmerson, for a few days.

A quart of fresh strawberry moose will make a delicious dessert for your Sunday dinner. Order from Vickery & Merrigan.

Mrs. Mary E. Coombs of Springfield is a visitor at the home of her brother, G. W. Stout on North Church street.

Mrs. Margaret Anderson of Springfield is enjoying a visit with her sister, Mrs. Nora White on East College street.

Miss Myrtle Hanlin expects to go to Bluffs this morning to spend Saturday and Sunday at the home of Mrs. Charles Hale.

Miss Myrtle Glover arrived at home Friday after a visit of several days at the home of her sister, Mrs. W. P. Hamm, in Peoria.

J. E. Brownell of Bloomington, representing the Bon Devorant Dental Supply company, was transacting business in the city yesterday.

W. W. Ewings has returned from an extended stay at Washington, D. C., where he attended the inauguration of President Wilson.

Mrs. Charles Miller, Mr. and Mrs. William Cook and James Murphy were among the visitors from Mur-rayville in the city yesterday.

The strawberry Sunday made from the fresh fruit today at Vickery & Merrigan's.

Mrs. Robert Hayes of Manchester expects to leave this afternoon for her home after a visit with Mr. and Mrs. Ralph Frost on Fayette street.

Mrs. F. M. Roberts, Mrs. Thomas Scott and Miss Margaret Egan of Chapin were among the out of town ladies shopping in Jacksonville Friday.

Grape fruit, 5c a piece. T. L. Cannon, red front, 217 S. Main St.

Spencer Carpenter respectfully asks all Democrats and others interested in the square deal to vote for him April 8 for nomination for county commissioner.

Mrs. F. W. Obermiller and daughter Ruth, of Mt. Pulaski, spent yesterday with Miss Pauline Obermiller a student at the I. S. D.

(Henry Roberts of West College avenue was called to Chicago Friday morning by the illness of his wife, who is visiting at the home of her daughter, Mrs. H. R. Moore, in that city.

Rev. and Mrs. H. L. Williams have returned from Nokomis, where they were called on account of the death of Mrs. Williams' father, John Carsten.

W. W. Ewing has arrived at home from Washington, D. C., where he has been enjoying a visit of two months at the home of his sister, Mrs. W. P. Sterns. Mr. Ewing was accompanied home by his aunt Mrs. James B. Black of Virginia who has also been a visitor in the national capital.

See the little fancy traveling bags, just the thing for the little ones, only 15c, in the window of Vickery & Merrigan.

J. H. Cain & Son of the Brook Mills yesterday contracted with Dan Hoffman, advance agent of the mighty Haag circus and Menagerie company for furnishing the necessary feed for their 150 horses upon the arrival of the show in this city where they are to exhibit on Saturday, May 3.

Mrs. Mathew Miller is much pleased by the receipt of a box of beautiful flowers which were sent through parcel post by Mrs. W. H. Wright and daughter, Miss Bertha, from Richmond, Calif., where they have been spending the winter months. The flowers came by parcel post and were in nice condition.

J. A. Munson arrived at home Friday from a business trip to Canton. He reports considerable water in some of the streets in Beardstown. It is said by some who have been in Beardstown within the past few days that the water on the streets was not from the Illinois river, but overflow from a creek which runs around the east side of the city. Rains, too, have added much to the deplorable conditions within the past few days.

SEALING BIDS will be received until April 10, 1913, for the labor in painting eleven houses. For further particulars call at Cherry's Livery office.

HELD FINAL EXAMINATION. Final examinations for eighth grade pupils of five schools were held at the Alexander school Friday. Thirty-six pupils took the examination and their papers will be examined and marked at the office of the county superintendent, after which the grades of the pupils will be announced.

ALFRED CALZIN, PIANIST GIVES BRILLIANT RECITAL

Well Known Chicago Musician Delights Large Audience at Woman's College By Superb Playing.

Although Jacksonville has enjoyed some splendid concerts recently, comprising the very best in the musical line, the recital given by Alfred Calzin last night as part of the artists' course at the Illinois woman's college was a musical triumph. Mr. Calzin has been concentrating a great deal but recently has been conducting a studio in Chicago. He was educated under Berlin masters chief of whom is Jonas. The pianist possesses wonderful musical understanding and his execution is such that his hearers are spell-bound at times, because of his tremendous velocity in passage work and in octaves. Especially was this shown in the Etude from Paul de Schloerzer and in the Hungarian March. The program was highly classic throughout and quite serious. The audience caught the spirit of the player and accorded him wonderful support. As encores he gave a "Toccata" from Jonas and at the close of the program "La Campa Nella" from Liszt.

Dr. Steiner, who was on the artists' course and unable to be here last month will end the course on his appearance May 6.

The program follows:
Variations Serieses, Op. 54..... Mendelssohn
Ballade, Op. 23..... Chopin
Etude, Op. 10, No. 3..... Chopin
Etude, Op. 23, No. 2..... Rubinstein
Etude, Op. 1, No. 2..... Liszt

.....Paul de Schloerzer
To a Water-Lily..... MacDowell
Humoresque, No. 1..... Greig
Erotik, Op. No. 5..... Greig
Valse de Concert, (for left hand alone)..... Zichy-Calzin
Arabesque, No. 2..... Debussy
Arabesque, No. 1..... Debussy
En forme de Valse..... St. Saens
Valse Lente, Op. 8..... Jonas
Hungarian March..... Liszt

Men who want the best Hat values can always be pleased at FRANK BYRNS' Hat Store.

INQUEST HELD FOR INFANT.

Five Month Old Son of Mrs. Nina Hacker, Near Arcadia, Dies Suddenly.

Deputy Coroner J. G. Reynolds held an Inquest Friday to inquire into the death of Robert Hacker, the five month old son of Mrs. Nina Hacker, who resides two miles west of Arcadia.

According to the testimony of the mother the baby was taken ill March 23 and Dr. A. E. Overmeyer was called. At that time it was vomiting and had a cold, but no fever and he left some medicine for it. Thursday morning at 5 o'clock, after being up all night taking care of her mother, Mrs. Hacker said she laid down with the baby, and when she awoke at 10 o'clock that morning the child was dead. Mrs. Orville Mallicoat, a sister of Mrs. Hacker, was a witness and her testimony corroborated the story of the mother. In addition Mrs. Mallicoat said that the day before its death the child had several spasms. The jury, which was composed of Baxter Hale, Chester Brainer, G. G. Smith, George Thomas, H. C. Brainer and William Guthrie, returned a verdict that death was due to acute dilatation of the heart, with bronchitis and spasms as contributory causes.

Funeral services were held Friday afternoon at 2 o'clock and interment was made in the Arcadia cemetery.

SECOND WARD PRIMARY. Republicans of the second ward are requested to meet in the circuit court room Tuesday night, April 8, to nominate a candidate for member of the board of education.

Joseph D. Goveia,
R. L. Dye,
Committeemen.

You will find the very best offerings in men's clothing at Knoles'.

UNION BAPTIST CHURCH. Services at Union Baptist church, Pisgah, Sunday, April 6. L. H. Williams, pastor: Sunday school at 10 a. m.; preaching service at 11 a. m.; subject: "Power for Service." Evening session at 7:30, subject: "Correct Thinking." Young People's meeting at 8:30. Two quarterly business meetings of the church will be held tonight and a full attendance is desired.

Before making your selection for a spring suit see our line of Hart, Schaffner & Marx in all the leading styles and colors, especially gray mixtures. Breckon & Jenkinson.

AUCTION SALE TODAY. Remember the big auction town lot sale this afternoon at 2:30. The lots will be sold at the high dollar. You make the price, we make the deed. These noted auctioneers often sell a lot a minute. Don't fail to be there. We are going to give the gold away.

The ladies of Westminster church will hold a market at Rayhill's today.

ILLINOIS WOMAN'S COLLEGE GUILD. A silver offering is requested at the meeting of the guild this afternoon. Miss Kidder grants the guild the great favor of reading Jerome K. Jerome's "Third Floor Back," and will be glad if it may assist in making the desired donation for books for the college library.

All who would like to hear the reading are cordially invited to attend this meetings in the college chapel at half past two o'clock this afternoon.

ROSEDALE AUCTION TODAY. You possibly will never in a life time again have an opportunity like you have this afternoon of hearing the big auctioneers at lot sale. There are no more like them and think you will say so after you hear them. Remember the gold will be given away absolutely free.

ATTEND SUFFRAGE MEETING. Mrs. A. L. Adams, Dr. Grace Dewey, Dr. Josephine Milligan and Mrs. Thomas Worthington have been in St. Louis attending the suffrage convention.

THE ART OF CORRECT DRESS

The Fourth Article in a Series of Talks on Correctness in Dress. A Subject of Especial Interest Just Now to

The Young Woman Graduate

Correctness in dress does not necessarily mean that a great expenditure must be involved in its production. Correctness is not a purchasable commodity, but is brought about by taking advantage of the best resources offered in the line of costuming. Graduation day marks an important epoch in a young woman's life, and the gown worn upon its celebration should be in keeping with the occasion. Harmon's Dry Goods Store, by virtue of the renown it has won as a dress goods center, is the logical place to come for the graduation outfit; and the pattern department, where the famous Pictorial Review patterns are sold, shows the latest authorized modes for fashioning the garment. These two departments, through the agency of a talented and helpful sales force, are the most pronounced aids contained in Jacksonville for obtaining correctness in the graduation gown.

Three Splendid Specials for This Week

To introduce the graduation buying period we offer for this week only, three very special values in Embroidered Voile. Most every woman is acquainted with the sheerness and splendid adaptability of Voiles for graduation dresses—but a mere printed description such as this can in no way reveal the unusual texture of these fabrics. You must come see them for yourself. The offering consists of

A 45 inch Embroidered Voile at 59c

A 45 inch Embroidered Voile at 79c

A 45 inch Embroidered Voile at 98c

WILL OF JOHN W. CLARY IS ADMITTED TO PROBATE

Large Landed Estate is Distributed Among Children Subject to Life Interest of Mrs. Clary.

The will of the late John W. Clary was admitted to probate Friday in the county court. By the terms of the will Mr. Clary disposes of a large estate. The wife of the deceased is given all personal property and a life interest in the realty subject to certain rights of the sons. The instrument was drawn Sept. 27, 1911 and witnessed by Dr. Edward Bowe, I. E. Worfolk and Lina Epperson. The executors are John W. Samuel, P. and Michael Clary.

Debits are provided for and the second paragraph sets forth that all personal property is willed to the wife of the deceased and during her life time the sons are to pay \$2.50 per acre to her on the land willed to them. The sons are to pay taxes, insurance, etc.

The land bequests are, to Samuel P. Clary, 160 acres; to Jeffrey Clary 157.69; to Michael Clary, 126 acres; to John W. Clary, 168 acres. To Mary Hester Clary is given the residence property on West Lafayette avenue and \$4,000 in cash, this sum to be a lien on the premises willed to John, Samuel and Jeffrey Clary. To Mrs. Maggie Clary O'Day there is a bequest of \$10,000 and to Mrs. Edward Stevenson, \$6,000, both to be charges upon the land willed to John, Samuel and Jeffrey Clary. Mention is made of the inequality of bequests and it is stated that the differences are due to advances made heretofore. A provision is also made that should any devisee attempt to set aside the will that such devisee is to forfeit all right to any bequest made and to take \$25 in lieu thereof.

A large assortment of men's superior styles and quality Negligee Shirts are shown by FRANK BYRNS' Hat Store.

Rheumatism as a result of kidney trouble, stiff and aching joints, backache and sore kidneys will all yield to the use of Foley Kidney Pills. They are tonic in action, quick in results, curative always. W. S. Skelton, Stanley, Ind., says: "I would not take \$100.00 for the relief from kidney trouble I received from one single box of Foley Kidney Pills." City Drug Store, J. A. Obermeyer.

The new spring blocks in men's hats at Knoles'.

NEW YORKERS TO SEE KING'S FLOWERS.

New York, April 4.—King George V. has entered exhibits at the third international flower show of the Society of American Florists and Ornamental Horticulturists, which will be opened at the Grand Central palace tomorrow and continue through the coming week. It will be the first time that the product of the royal conservatories has been placed in competition outside of Great Britain. The exhibition promises to be the most notable of its kind ever held in this country. Prizes aggregating \$20,000 in value will be distributed.

ROSEDALE LOT SALE TODAY.

Don't forget to attend the big auction town lot sale this afternoon at 2:30. Sale will take place on the premises of the old Morrison homestead. The big auctioneers will certainly entertain you. You will miss a treat if you don't hear them.

ATTEND SUFFRAGE MEETING. Mrs. A. L. Adams, Dr. Grace Dewey, Dr. Josephine Milligan and Mrs. Thomas Worthington have been in St. Louis attending the suffrage convention.

ZELL'S GROCERY

TARIFF REVISION BILL COMPLETED

(Continued from Page One.)

of the measure. A preliminary agreement on the bill, it is claimed, will result in the making of few changes by the senate when the bill reaches that body.

Chairman Underwood, when the ways and means committee adjourned for the day, expressed the hope that the committee would hear from the president and the senate committee by Sunday at the latest.

Underwood's Statement.

"Our bill is ready," said Mr. Underwood. "The sugar tariff is the only serious point in controversy and our committee has agreed to do whatever the president wants us to do, after he has made up his mind."

"We expected to get word from the president today after his conference with the senators, but the word did not come. I believe, however, that the whole matter will be determined tomorrow."

"If the president cannot bring about an agreement on this schedule we are ready anyway, and the bill will go to the house as a committee bill."

"This committee has agreed thus far to every change the president suggested in our original bill as it reached him. His suggestions were few. Most of the bill met with his heartiest approval. The committee was of the mind that no bill should be presented which President Wilson might veto when it reached him. Having made the changes he suggested we are now ready to accede to any further recommendations he may make."

Because of the delay in settling the sugar schedule the committee may not be ready to introduce the bill Monday. Chairman Underwood assured the president that he could have all the time necessary to bring about an agreement with the senate leaders. If he should ask for time, the bill will be withheld until it is apparent that no agreement can be reached. In this case the Democratic caucus also would be delayed.

Working For Harmony.

The ways and means committee chairman declared that every member of his committee was co-operating with the president to bring about harmony, in order to hasten the tariff legislation for the welfare of the country. All agreed that the points of serious difference should be settled by compromise if necessary before the bill is sent into the legislative mill, rather than afterwards, when stubborn obstacles might arise to prolong the debate and drag the session along for months.

A provision of the measure is that it shall become effective on midnight on the day on which it is signed by the president. This provision and the fact that the measure will be a blanket bill including the income tax when it comes from the committee strengthens the probability that it will be considered in congress as one measure instead of being taken up schedule by schedule. This method, it is said, will almost certainly follow if there is an agreement between the president and senate and house leaders as to the rates.

Gore Preparing Bill.

Believing that the consular service belongs to the department of commerce rather than to the state department, Senator Gore is preparing a bill providing for the transfer of this branch of foreign representation. The senator contends that virtually all work done by the consuls relates to commerce. Secretary Redfield was not ready today to express an opinion.

QUEEN ESTHER CIRCLE GIVES SPLENDID PROGRAM

Young Ladies' Organization of the Methodist Church of Murrayville Delights Large Audience by Entertainment.

The Queen Esther circle of the Methodist church of Murrayville gave an entertainment in the church parlors Friday evening, which was largely attended and very interesting. The first part of the program follows:

Music, Star Spangled Banner—Audience.
Recitation—Edna Sorrels.
Recitation—Esther Osborne.
Music by girls' quartet—Misses Beulah Ketner, Edna Osborne, Cecil Cunningham and Mildred Wright. (Man and the Tale).
Dialogue—Emma Henry and Helen Crouse.
Selection, Juanita—Girls' quartet.

SECOND PART.

The second part of the program was America's reception to the nations, then our flag. Each girl was dressed to represent some country, person or condition as follows:

America—Alma Millon.
Escorts—Pearl Wild and Lena Wilson.
Herald—Lois Cunningham.
Messenger—Grace Jennings.
Representative of W. H. M. S.—Carl Riggs.
India—Lella Galloway.
Mountain girl—May Cooper.
Chinese girl—Gladya Osborne.
Italy—Edith Sorrels.
Slum child—Theresa Sorrels.
Immigrant child—Mabel Jones.
Mite box—Mildred Jones.
Mormon girl—Edna Cook.
Alaska—Alma Storey.
Porto Rican—Marie Angel.
Hawaii—Melinda McCarty.
Deaconess—Zella Neal.
Japan—Jane Wright.

These different girls would be introduced to the American girl and a short address would be given by each young lady representing a country. During the last part of the program a number of old time songs, both secular and religious, are sung and the exercises closed with all the girls standing on the platform with America's representative in the foreground and a cross is brought in, while Miss Beulah Ketner and Mildred Wright sing "In the Cross of Christ I Glory." The program is concluded by a tableau.

REMAINS EXPECTED SUNDAY.
The remains of Frank Ornelas, who died at El Paso, Texas, are expected to arrive in the city Sunday night or Monday morning and the funeral will probably be held Tuesday morning. The remains were expected here Friday but on account of a misunderstanding were not sent until Friday.

Luther Wiley, who has been quite ill at his home at Alexander, with inflammatory rheumatism, is improving slowly.

SAFETY OF CAIRO TO BE DECIDED

(Continued from Page One.)

on which to build a temporary track through the submerged district in order that communication with this city and the line south may be re-established.

More than 100 negroes were released from work tonight on the levees, and at the same time Colonel Moriarity gave orders for doubling the patrol of soldiers to prevent looting in residence and business districts where owners have left the city.

Mayor's Plan a Good One.

Conditions in Cairo at the present time have brought the people to the realization that had they followed the advice of Thomas Holliday, when he was mayor, they would now be on high and dry land smiling down on the flood water of the Ohio; the business going on as usual and everyone enjoying the luxuries of his own home in place of having their furniture stored on second and third floors and most of the residents refugees in other towns.

Mr. Halliday's plan was to begin the filling up of the low ground on which the city stands until it would be sixty feet high or on a level more than five feet higher than the present record mark on the river gauge.

The work was to go on gradually and long before now would have been completed and it is the opinion of many property owners that such a plan yet must be carried out if the city is to survive the flood waters of the future.

Dickson Goes to Cairo.

Springfield, Ill., April 4.—Adjutant General Frank S. Dickson left Springfield at 4:30 this afternoon for St. Louis where he will board the state boat Illinois and proceed to Cairo where the Illinois will be used as a base of supplies for the flood-stricken districts of southern Illinois. General Dickson will leave St. Louis tonight and expects to reach Cairo Saturday noon. Colonel F. D. Whipp, adjutant general of the second brigade will be in charge of the adjutant general's office in this city until the arrival at midnight from Shawneetown of Assistant Adjutant General Richings J. Shand, who has been directing relief work in that locality. Governor Dunne this evening issued the following statement, urging Illinoisans to attend the national drainage congress to be held at St. Louis next week in view of the flood conditions in this state which render the congress of vital importance to the people of Illinois:

The statement follows:

"In view of the flood situation in Ohio and neighboring states the meeting of the national drainage congress to be held in St. Louis April 10th to April 12th, will be of peculiar interest and importance to our people."

"President Wilson has virtually placed upon the national drainage congress the responsibility of formulating and presenting to the nation a plan to prevent the recurrence of loss of life and property by floods and the congress has accepted this responsibility."

"The recent catastrophes have demonstrated the grave necessity for proper drainage and flood protection legislation."

"I therefore earnestly urge all those who have been appointed delegates to this congress from Illinois and other citizens interested in the subject matter of this meeting to attend the congress and aid in its deliberations to the end that there may be drafted and put into operation some plan or plans looking toward the alleviation and prevention of similar disastrous floods with their attendant loss of life and property."
(Signed) "E. F. Dunne,"
"Governor."

Fine line of negligee and dress shirts at Knoles.

SOCIAL EVENTS.

Announcement of the approaching marriage of Miss Eloise Smith and E. I. Whitlock was made at a tea given Friday afternoon in honor of Miss Smith, by Mrs. Edward P. Brockhouse at her home, 715 West State street, the date of the wedding being June 18.

The Brockhouse home was attractively decorated for the occasion, the colors yellow and white predominating, daffodils, carnations and ferns being used to pretty effect. The hours were from 2 till 5 and the guest list included one hundred and fifty. Announcement of the wedding time was made when the refreshments were served, each small square of cake containing the initials "W. and S. June 18." In every way the hours were delightfully spent. Miss Smith is the youngest daughter of Mrs. Alice Nelson Smith, 138 Park st., and Mr. Whitlock is the son of Mr. and Mrs. Isalah W. Whitlock of Murrayville.

The hostess was assisted in entertaining by Miss Eloise Smith, Misses Alice and Maude Smith, Mrs. Miller Weir, Mrs. H. H. Bancroft, Mrs. William Bancroft, Mrs. B. H. Grierson, Mrs. F. E. Baldwin, Mrs. E. M. Dunlap, Mrs. W. G. Goebel, Mrs. Percy Jackson, Mrs. Harrison King, Miss Maebel Goltra, Miss Rose Bellatti, Mrs. E. B. Harmon and Miss Katherine Rogers.

The South Side circle met with Mrs. Thomas Buckthorpe on South Main street, Friday afternoon. Mrs. Charles Ehrie was the leader and she gave a comprehensive review of "Queed" by Henry S. Harrison. Light refreshments were served. The next meeting will be held with Mrs. Frank Bristow on West North street.

The Progressive club met with Mrs. Olie Pires at her residence, 709 Sandusky street, Friday afternoon with a good attendance of members. The hours from 3 until 5 were very pleasantly spent with music and in a social manner and during the afternoon delicious refreshments were served.

STRUMPFER OF SPRINGFIELD TESTIFIES AT QUINCY TRIAL

Man Whose Bloodhounds Followed Scent Taken at Pfanschmidt Farm to Tent of Ray Pfanschmidt on Stand.

Quincy, Ill., April 4.—Almost the entire session of the murder trial of Ray Pfanschmidt was taken up today with the testimony of H. G. Strumpher of Springfield, whose bloodhounds followed the scent taken at the Pfanschmidt farm to the tent of Ray Pfanschmidt, a distance of about eleven miles.

After an extended argument, Williams allowed the preliminary evidence to be introduced showing the records of the two dogs and what they have heretofore done in the way of tracing criminals. After the preliminary proof, serious objection was made to the evidence of the route which the dogs followed because sixty hours intervened between the time the tracks were alleged to have been made and the time when the dogs were put upon the scent. The evidence was finally admitted and proved that the dogs followed the tracks from the farm to the tent unhesitatingly.

Two other important witnesses today were H. A. Craubaugh and Joe Frese. Mr. Craubaugh testified that he saw Ray Pfanschmidt's buggy on North Twelfth street going toward his tent, after 1 o'clock the Sunday morning of the fire. Mr. Frese testified that Ray had asked him in regard to where the gasoline at his place was kept. Ray was shown where the key to the gasoline shed was located. After the fire he missed a five gallon gasoline can from his place. This is the can which the state claims was found in the ruins of the fire.

DIES OF HEART DISEASE.

Runaway Team is Stopped.

Chicago, April 4.—With death in the driver's seat a team hitched to a junk wagon ran wild on Fortieth avenue for a half mile this afternoon narrowly missing a collision with street cars and frightening and scattering pedestrians. Motormen of two Madison street cars averted a crash only by reversing the power. When the horses were stopped it was found that the driver, Robert Kaufman, had died of heart disease, his hands still clutched the reins and the body was prevented from falling by a high-backed seat.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

TWO SIZES—50c. and \$1.00

W. D. Haywood, organizer for the Industrial Workers of the World, has been sentenced to jail for six months, on a charge of disorderly conduct calculated to provoke riot.

This year is not the first time records of high water have been broken at Cairo. It is a yearly occurrence. The people there have become accustomed to it. They fully expect to keep on being saved. It is a danger point, but no resident of the place is willing to acknowledge it.

The vote of the Bull Moose party showed a great slump in the larger cities—Chicago and St. Louis. In the latter city the Republican candidate for mayor was elected by a good majority after Colonel Roosevelt himself had by letter advised Progressives to support Democratic candidates.

The new secretary of agriculture, David Franklin Houston, is president of Washington university, St. Louis, and a leader among that able group of men who have been called "America's educational statesmen." Yet when a reporter sought to learn something about him from the congressmen and senators of his own state in Washington it was found that not one of them knew anything about him. Houston is not a politician, and politicians are a race apart.

Governor Sulzer, of New York, believes in prompt action in dealing with legislative corruption. Having had presented to him very definite evidence that a member of the state senate had demanded "jackpot" money to promote certain legislation, the governor demanded that senator's resignation. More of this determination and less compromising will bring better government, and would have resulted in much good if the same policy had been followed in this state.

The recent election in Springfield was no more successful in bringing out the true sentiment of a majority of the voters than in Decatur. Let us hope that at the coming bond election in this city the people show a greater appreciation of the importance of the referendum. The Register says: "The election of Tuesday brought out only a light vote. This is a subject of regret and should be noted by every truly loyal citizen. It is a bad sign when people fail to go to the polls to register their opinions on matters of great public importance or the election of men to fill public offices."

The deportation of Chinese Tong warriors as "professional murderers" will be undertaken by United States authorities in San Francisco in a renewed effort to check the feuds existing between Chinamen. The United States district attorney states that these professional murderers are in the country illegally, and obtained their certificates fraudulent, because they came to engage in crime, not trade. While it may be difficult to prove that a particular Chinese is guilty of a particular murder, it is comparatively easy to show that he is a troublesome character, not the Chinese merchant he was supposed to be.

The statement is made that J. P. Morgan literally starved to death. The man of millions could not control his own muscles necessary to the swallowing of food. Nor could he, with all his wealth, find any one sufficiently skilled in healing to cure him of his ailment, says the Canton Register. How like men are; how disease assails them and death stops at their door. No power of mind or store of gold can aid them and they die the same death. After that, who knows? Not every wealthy man is condemned nor every beggar pardoned, but it was Lazarus who rested on Abraham's bosom and the rich man who begged for a drop of water.

In 1876 when the pension bill carried a total of \$35,000,000, James A. Garfield referred to the appropriation as being almost a matter of course the highest that our annual expense for war pensions would ever reach. In 1877, however, the expense was \$57,000,000; in 1887 it was \$80,000,000, while in 1890 it reached the \$125,000,000 mark. Near that point it remained until 1906, when it went to \$160,000,000, and then advanced to \$165,000,000 in 1912. The last pension bill passed carries a total of over \$181,000,000, or five times what Garfield, himself a soldier in that war, thought was the high water mark in pension expenditures thirty-seven years ago.

While equal suffrage—the ballot for women—met reverses in Maine, Massachusetts, Missouri, Nebraska, and a few other states, the legislatures of many states have decided to refer it to the people for acceptance. Among them are Michigan, North and South Dakota, Montana and Nevada. The people will vote upon it in these five states in the next election. The legislatures of New York, New Jersey and Iowa have also passed suffrage resolutions, but these must be indorsed by the next legislatures before the people can deal with them. Suffrage passed each branch of the West Virginia legislature, but it fell a little short of the two-thirds requirement which is needed in that state.

SUBMERGED LANDS.

The present high waters, flooding thousands of acres of low lands along the rivers in this vicinity as well as in other states, emphasizes the statement of Edmund T. Perkins, formerly connected with the United States engineering service, that little more than one-half the farm area is cultivated. Illinois, he said, which has a population of 6,000,000, could furnish food for the support of 20,000,000 persons. He estimated that there were more than 2,000,000 acres lying idle in this state.

Much of the land which might be cultivated with profit is submerged all or part of the time. Swamp and overflowed lands were estimated by the federal department of agriculture in 1907 to amount at 77,000,000, which could be drained and otherwise made fit for cultivation at an average cost of \$15 an acre. Figuring the present value of these lands at an average of \$8 an acre and their value after drainage at \$60 an acre, the net increase in value after paying drainage costs was found to be \$2,849,000,000.

Perhaps the most interesting fact just now is that the reclamation of most of this vast area of exceedingly rich land depends largely upon the control and regulation of the Mississippi river and its tributaries. In other words, the problem of control and the problem of drainage are complementary. Reasons for making this fertile land available for use—chiefly the fact that the population is growing fast and that the land is needed to raise foodstuffs—add force to the movement for controlling the country's rampaging rivers.

12,000,000,000 HORSE POWER. Twelve billion horse power—that is the combined electrical power output of the 7,500 central stations in the United States. Can you conceive what these figures actually mean? One literal soul to whom the question was recently put objected that "there aren't that many horses in the world!"

There aren't. The objection was perfectly sound. But the fact remains that the power output of this country's central stations is just about equal to the energy of those twelve billion equines.

And that is not one-half of the total electric power produced in the United States. The twelve billion total includes only public service companies and does not include the great steam railroad and manufac-

turing companies which produce and use their own power. The total power thus produced is easily double the output of the central stations.

It is a little difficult for the mind to grasp what such vast amounts of power really mean. Take it this way: The largest standard locomotive which pull the fastest passenger trains are rated at about 5,000 horse power. It would take nearly 5,000,000 of these big locomotives to equal the energy produced by American electrical power stations. Take the biggest transatlantic liner, nearly a thousand feet long, with its engines rated at 70,000 horse power. To equal the electrical power output of the United States would take 342,857 of these liners, with a combined length that would reach more than twice around the globe.

The figures of the census of 1910 on the electrical industry are astounding and yet these statistics are admittedly incomplete.

"The growth of electrical industries has been so rapid, recently declared Dr. Schuyler Skaats Wheeler, "that no method has yet been devised by the government census takers to classify its ramifications in the census of manufactures. No matter to what extent the steam railroads electrify, they are still classified under steam railroads. The thousands of poles used to string wires are classified under the lumber industry. The great copper companies, producing practically exclusively for electrical industries, are classified under the copper industries."

Dr. Wheeler estimates that the total business in electrical machinery in the United States was in the neighborhood of \$300,000,000 in 1912. This estimate seems conservative when we realize that the last census reported the total business for 1909 at \$243,000,000.

Facts and figures like these make one realize how rapidly and completely the practical application of electrical power is revolutionizing all modern life and industry.

CONFIRMATION EXERCISES. Confirmation exercises will be held at Salem Evangelical Lutheran church next Sunday. The following children will be confirmed.

Emma Wiegand, Amanda Stubbe, Erwin Aufdenkamp, Erich Kuppel, Clyde Landreth, Erwin Miedendorf, Lloyd Zimmer.

The services conducted by the pastor, J. G. Kuppel will begin promptly at 10:45 a. m. Following will be the order:

Scripture lesson and prayer. Examination in Christian doctrines.

Song by class. Confirmation act. Anthem by choir — Jesus, Our Savior.

Address. Solo by Mrs. Robt. L. Stice, "He Knows the Way."

Prayer, hymn, benediction, doxology.

All are cordially welcome.

G. A. R. TO GIVE AID.

A called meeting of Matt Starr Post No. 378 G. A. R. was held in the meeting room of the Ayers national bank in response to a call of W. H. Jordan, commander. The object of the meeting was to take action towards the relief of G. A. R. post members in the flood stricken districts. Quite a number of members were present and after the reading of a circular letter from headquarters and a discussion of the subject, it was ordered that a draft for the sum of \$25 be sent to Thomas H. Gault, department commander at Chicago. The fund will be sent to the place where it is most needed.

CARNEGIE HERO FUND COMMISSION HAS ISSUED ANNUAL REPORT

Give Facts About Seven Hundred and Twenty-three Awards Made—Regulations Are Outlined.

The Carnegie Hero Fund commission has just published a booklet explaining the objects and rules of the commission and making known the findings of the commission in the making of 723 awards for heroism. The regulations under which the commission acts are outlined as follows on one page of the booklet. These regulations read as follows:

"The scope of the fund shall be confined strictly within the following limitations:

1st. To acts in which conclusive evidence may be obtained showing that the person performing the act, voluntarily risked his own life in saving, or attempting to save, the life of a fellow being, or who voluntarily has sacrificed himself in an heroic manner for the benefit of others.

2d. Such acts must have been performed by persons the nature of whose duties in following their regular vocations does not necessarily require them to perform such act.

3d. Such acts must have been performed in the United States of America, the Dominion of Canada, the Colony of Newfoundland, or the waters thereof.

3d. Such acts must have been performed on or after April 15, 1904, and brought to the attention of the commission within three years of the date of the act.

5th. Mr. Carnegie having directed that, in case of death, widows and children, or other dependents, are to be provided for until the widow reaches a self-supporting age, and, in the event of disability, the disabled to be provided for until again able to work, the maximum death or disablement benefit to be paid in any one year to any one family or dependent shall not exceed \$1,000.00, the amount and manner of payment in each case to be fixed by the commission upon the recommendation of the executive committee, provided, in no case, however, shall death or disablement benefits be paid unless it shall be clearly shown that the dependents or disabled need such assistance.

6th. Medals, when awarded, shall be presented to the person performing the act, or, in case of death, to the widow or next of kin.

7th. Heroic acts may be brought to the attention of the commission by direct application, or through the public press.

WEDDED AT PORTLAND.

Cards received by friends in this city announce the marriage at Portland, Oregon, March 26th, of Richard Philip Jacoby, son of Mr. and Mrs. Philip Jacoby, of North Church street, to Margaret Helen Sinnott, daughter of Mr. and Mrs. Walter Sinnott, of Portland. The young couple will reside in that city. Mr. Jacoby being in business there. "Dick" was born and raised in this city and was educated at the local high school. He was connected with the business office of the Journal for a time. He has many friends in this city who will extend congratulations both upon the success he is winning in the great west and upon his marriage.

Executrix.

MELANCHOLY WOMEN

Should Profit by Mrs. Hurley's Experience—Her Own Story Here Told.

Eldon, Mo.—"I was troubled with displacement, organic inflammation and female weakness.

For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased once a month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world.

"After I had tried most every female remedy first, without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself."—Mrs. S. T. HURLEY, Eldon, Missouri.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere.

It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it?

ETHEL ROOSEVELT BECOMES BRIDE

Daughter of Former President Now Wife of Dr. Richard Derby.

New York, April 4.—St. John's Protestant Episcopal church, Oyster Bay, L. I., was filled with a gathering of distinguished guests today, when Miss Ethel Carow Roosevelt, daughter of Colonel and Mrs. Theodore Roosevelt, became the bride of Dr. Richard Derby of this city. The youth and beauty of the bride, the prominence of her father as an ex-president of the United States, and the presence of many guests of wide note combined to make the wedding the most notable affair of its kind that has taken place in this vicinity in a long time.

The marriage ceremony was performed by the rector of the church. The bride attendants were the Misses Josephine Osborne, Margaret A. Tucker, Helen Coster and Cornelia Landon and Miss Derby a relative of Dr. Derby. The groom was attended by his brother, Roger A. Derby, who acted as best man and met the bride at the church steps. The ushers were Messrs. Archibald D. Roosevelt, brother of the bride; James L. Derby, a brother of the bridegroom; Dr. Henry James, John C. Waterbury and Edward P. Rogers, of this city and Mr. Nelson F. Bossert of Boston, a classmate of Dr. Derby at college.

The bride was given away by her father, Colonel Roosevelt. She wore a French gown of white satin with long train and covered with point lace. Her veil was of old point lace and she carried a bouquet of bride roses and lilies of the valley.

The program of orchestral and vocal music at the church was especially notable and was arranged by the bride herself. Miss Ernestine Merrill of Boston sang several songs, one of which told the story of Ruth and Naomi. The organ was supplemented by an orchestra under the leadership of Naham Franko of this city.

After the ceremony the bridal party and guests were taken in carriages and automobiles to Sagamore Hill, the Roosevelt home, where a wedding breakfast was served and a large reception was held. The breakfast was served on small tables in the dining room. Clusters of roses adorned the center of each table. The decorations of the bridal table were entirely of white. In the center was a two-storied wedding cake.

Dr. Derby and his bride have engaged passage for Europe tomorrow. They plan to spend the greater part of the summer in travel on the continent. Upon their return home next fall they will take up their residence in New York city.

Though she has not been so conspicuously in the public eye as her half-sister, Mrs. Alice Roosevelt-Longworth, the bride of today naturally attracted much attention during Colonel Roosevelt's tenure of office as president of the United States. She made her formal bow to society at a brilliant reception at the white house in December, 1908, and since that time she has been conspicuous in the younger social sets in Washington and in New York. During the past four years the most of her time has been spent with her parents at Sagamore Hill. Like her father, she is an ardent devotee of outdoor sports and is an exceptionally good horsewoman. Those who know her best describe her as an excellent example of the American girl of the highest type, attractive in personal appearance, with a winsome spontaneity which is so evidently natural and ever magnetic.

Dr. Richard Derby, the bridegroom, is about thirty-two years of age. He graduated from Harvard in 1903 and is now a successful physician in this city. His father, the late Dr. Richard H. Derby, of this city, was a noted eye specialist, who graduated from Harvard back in '67, and whose death occurred on July 4, 1907, at his summer home at Dark Harbor, Me.

QUICK RELIEF

FOR RHEUMATISM.
George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began to use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Allcott, druggist.

SUFFERED BROKEN LEG.

Mrs. Walter G. Houston of the Bend neighborhood had the misfortune Thursday afternoon to fall from the barn loft at her rural home while hunting for eggs and sustained a fracture of one of her limbs near the ankle. She was brought to Dr. Day's hospital, where she was given the necessary attention.

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does for the house, and they should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get quick relief. For sale by all dealers.

FIFTIETH WEDDING ANNIVERSARY.

Mr. and Mrs. John Sinclair to Celebrate Long Married Life.

Mr. and Mrs. E. S. Sinclair of Arnold station were in the city Friday on their way to Virginia, where they will be present at the celebration today of the 50th wedding anniversary of his parents, Mr. and Mrs. Nottley Sinclair. It is the desire to hold a family reunion as it is expected all six of the children will be present to spend the day with their parents. Both Mr. and Mrs. Sinclair are enjoying good health, though he has attained to 72 years on life's road.

Cough Medicine For Children.

Too much care cannot be used in selecting a cough medicine for children. It should be pleasant to take, contain no harmful substance and be most effective. Chamberlain's Cough Remedy meets these requirements and is a favorite with the mothers of young children everywhere. For sale by all dealers.

State of Illinois ss.

Morgan County, Ill.

The following is a statement by W. L. Hopper of the town of Sinclair in the county and state aforesaid, of the amount of public funds received and expended by him during the fiscal year just closed, ending on the 10th day of March, 1913, showing the amount of public funds on hand at the commencement of said fiscal year, the amount of public funds received and from what sources received, the amount of public funds expended and for what purpose expended, during said fiscal year, ending as aforesaid.

The said W. L. Hopper, being duly sworn, doth depose and say, that the following statement by him subscribed is a correct statement of the amount of public funds on hand at the commencement of the fiscal year above stated, the amount of public funds received and the sources from which received and the amount expended, and purchases for which expended, as set forth in said statement.

Subscribed and sworn to before me this 2nd day of April, 1913.

A. A. McNeal,
Justice of the Peace.

DOING THEIR DUTY

Scores of Journal Readers are Learning the Duty of the Kidneys.

To filter the blood is the kidneys' duty. When they fail to do this the kidneys are weak.

Backache and other kidney ills may follow.

Help the kidneys do their work. Use Doan's Kidney Pills—the tested kidney remedy.

Jacksonville people endorse their worth.

Mrs. O. Lansing, 802 North Diamond street, Jacksonville, Ill., says: "I always praise Doan's Kidney Pills when I hear of anyone having kidney complaint. What I said about this remedy in 1901 still holds good. Nothing ever did my backache as much good as Doan's Kidney Pills. I took them when I was almost laid up and in a short time they put me on my feet again. I have usually procured Doan's Kidney Pills at Armstrong's drug store and I think so highly of them that I am willing to have my statement published."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

MISS JESSIE WILSON

GOES A-VISITING.

St. Louis, April 4.—Miss Jessie Woodrow Wilson, daughter of President Wilson, will arrive in this city tomorrow and will be the guest of honor tomorrow night at a recital to be given for the benefit of the Goucher college endowment fund. Miss Wilson is a graduate of Goucher college, formerly the Women's college of Baltimore, and is taking an active interest in the movement to raise a large endowment fund for the institution. During her stay in St. Louis Miss Wilson is to be the guest of Miss Lucia Sloan, one of her classmates at the college.

Straight at It.

There is no use of our "beating around the bush." We might as well out with it first as last. We want you to try Chamberlain's Cough Remedy the next time you have a cough or cold. There is no reason so far as we can see why you should not do so. This preparation by its remarkable cures has gained a world wide reputation, and people everywhere speak of it in the highest terms of praise. It is for sale by all dealers.

THE TEMPERATURES.

The temperatures for Friday, according to G. H. Hall, weather observer at Alexander, were: Maximum, 39; minimum, 39. A rainfall of .05 inches was recorded.

Surest Way to End Catarrh

Go to Coover & Shreve and say: "I want a HYOMEI outfit." Take it home—pour a few drops of HYOMEI from the bottle into the little hard rubber inhaler—breathe it for five minutes and note the refreshing relief—breathe it four or five times a day for a few days and Catarrh and all its symptoms will gradually disappear.

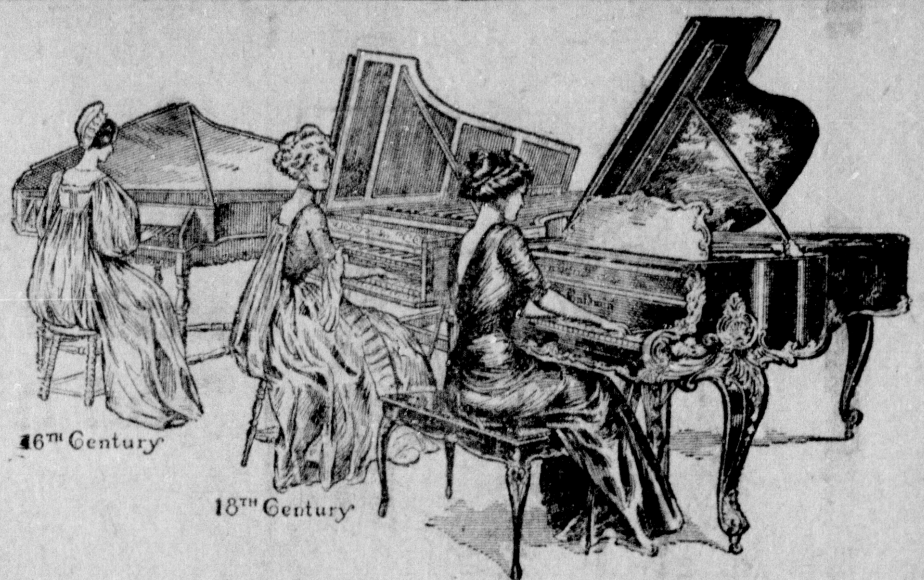

Booth's HYOMEI is balsamic air; it contains no opium, cocaine or other harmful drug and is sold on money back plan for Catarrh, Croup, Colds and Coughs. Complete outfit (includes inhaler) \$1.00—extra bottles if later needed, 50 cents at Coover & Shreve's and druggists everywhere. Simple instructions for use in every package—you can't fail. Just breathe it—no stomach dosing.

The Reasons Why You

Should Buy Your Piano or Player-piano from me:

1st. I will sell better pianos than you can buy elsewhere, which is the most essential reason.

2nd. Being at small expense enables me to sell at about one-half the profit you pay elsewhere.

3d. I am building up an honest business for myself here and need your support.

A Human Match Factory

The body contains phosphorus sufficient to make 483,000 matches. Phosphorus is one of fourteen elements composing the body—divided among bones, flesh, nervous system and other organs. The perfect health of body requires a perfect balance of the elements. These elements come from the food we eat—the stomach extracts and distributes them.

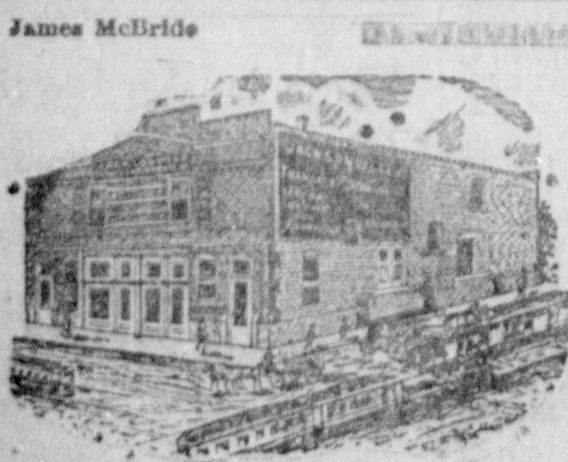

But if stomach is deranged—the balance of health is destroyed and the blood does not carry the proper elements to the different organs, and there is blood trouble—nervous trouble—heart trouble. Pain is the hungry cry of starved organs. Put the liver, stomach and organs of digestion and nutrition into a condition of health. That is just what is done by

A STRONG REFERENCE.
A young man recently applied for
a position with a large printing
house, and not having a letter of
reference offered his bank book. It
showed a regularity of entries of de-
posit. It was a very strong recom-
mendation, indicating character and
persistence, which finally secured for
him a good position.

to Colonial Inn and receive re-
ward. 3-3-tf

LOST—Door from automobile head-
light between Hardin and Clay
on Morton. Return to Estaque's
Garage. 4-2-tf.

BIRTH RECORD.
Mr. and Mrs. Daniel Bahan, Jr.,
are rejoicing over the arrival of a
baby son at their home on South Clay
avenue.

THE WORLD'S LATEST FINANCIAL AND MARKET NEWS

STOCKS REACH THE HIGH POINT OF YEAR

TRADING WAS HEAVIEST OF ANY
DAY IN MANY WEEKS.

Number of Important Issues Estab-
lish Gains of 10 to 15 Points From
Year's Low Figures—Cotton Oil
Made Five Point Gain.

(By Associated Press)

New York, April 4.—An outburst
of speculative activity today brought
stocks to highest point of the year,
establishing gains of 10 to 15 points
from the year's low figures for a
number of important issues. Trading
was broad and the heaviest of
any day in many weeks with numer-
ous advances of 1 to 2 points. At
times the movement was halted by
realizing sales but these offerings
were easily absorbed and the rise
was carried further. Heavy profit-
taking in the last hour, however, cut
into the day's advances.

The relaxation of money rates, the
promising outlook for crops and evi-
dences of excessive short selling dur-
ing the recent decline were pointed
out as justifying activity on the long
side of the market. The immediate
cause, however, appeared to be the
concerted operations by powerful
speculative interests. There were
some rather wide movements among
the less conspicuous stocks. Cotton
oil made a five point gain, rubber
rose nearly five points and beet
sugar rose four points.

Coming of The Sunbeam

How to Avoid Those Pains and Distress
Which so Many Mothers Have Suffered.

It is a pity more women do not know of Mother's Friend. Here is a remedy that softens the muscles, enables them to expand without any strain upon the ligaments and enables women to go through maternity without pain, nausea, morning sickness or any of the dreaded symptoms so familiar to many mothers. There is no foolish diet to harass the mind. The thoughts do not dwell upon pain and suffering, for all such are avoided. Thousands of women no longer resign themselves to the thought that sickness and distress are natural. They know better, for in Mother's Friend they have found a wonderful, penetrating remedy to banish all those dreaded experiences. It is a subject every woman should be familiar with, and even though she may not require such a remedy, she will now and then meet some poor mother to whom a word in time about Mother's Friend will come as a wonderful blessing. This famous remedy is sold by all druggists, and is only \$1.00 a bottle. It is for external use only, and is really worth its weight in gold. Write to-day to the Bradfield Regulator Co., 127 Lamar Bldg., Atlanta, Ga., for a most valuable book.

There is a wealth of instruction and comfort to be derived in reading this little book. It is plainly written, just what every woman wants to know, and will be a splendid little textbook for guidance, not only for yourself, but will make you helpful to others. And, in the meantime, do not fail to get a bottle of Mother's Friend at the drug store, and thus fortify yourself against any and all pain and discomfort.

TRADE OUTLOOK IS SATISFACTORY

CONSERVATISM IN ALL BRANCHES
OF BUSINESS IS MAINFEST.

With Coming of More Settled Weather, Retail and Wholesale Domestic Trade is Expected to Expand.

New York, April 4.—Dun's Review will say tomorrow:

The general trade outlook is very satisfactory, although conservatism in all branches is manifest. The disastrous floods of last week caused more or less interruptions to transporting and distribution agencies, but as those are restored a return to full normal activity is expected. March bank clearings were 2.4 per cent less than last year, though 5.1 per cent larger than in 1911. Railroad earnings during four weeks of March, on the other hand, made the important gain of 7 per cent.

While the iron and steel industry was disorganized by the floods, mills and furnaces are rapidly resuming work and fundamental conditions remain distinctly favorable. Reports from the textile trades indicate a substantial and healthy demand. With the advancing of settled weather, retail and whole sale domestic trade is expected to expand greatly. The balance of merchandise exports over imports in eight months amounted to \$474,000,000 and the favorable foreign trade situation continues.

Bradstreet's Report.
New York, April 4.—Bradstreet's tomorrow will say:

Irregularity, with a tendency toward more or less repression is the chief characteristic of trade activities. It is true that retail trade has improved somewhat and that returns from the northwest generally and from parts of the southwest show activity, but it is probable that there is a general desire to go slow, especially as tariff matters are well to the front, while at the same time money and credit matters demand attention. As hoped and confidently expected by those having advices from the flooded and storm swept sections of the Ohio and adjoining valleys the loss of life and property has been rather less than earlier feared.

Business failures for the week ending April 3rd were 237, which compares with 261 in the like week of 1912.

New York, April 4.—Bradstreet's bank clearings report for the week ending April 3rd, shows an aggregate of \$3,377,017,000 as against \$2,756,253,000 last week and \$3,727,442,000 in the corresponding week last year.

The following is a list of cities:

	Inc.	Dec.
New York	\$1,999,793,000	*12.2

A CARD.
This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar Compound fails to cure your cough or cold. John Bernet, Tell, Wis., says: "I used Foley's Honey and Tar Compound for five years, and it always gives the best satisfaction and always cures a cough or cold." Refuse substitutes. City Drug Store, J. A. Obermeyer.

WOMAN 101 YEARS OLD.
Corinth, Vt., April 4.—Mrs. Sarah Robie Wilson of this place celebrated her 101st birthday anniversary today. The official records of the town show that Mrs. Wilson was born in Corinth, April 4, 1812, the daughter of Ichabod Robie. With the exception of one year, all of her life has been passed here. Mrs. Wilson has four children 21 grandchildren, 11 great grandchildren and one great-great grandchild.

Look to Your Plumbing.
Found a Cure for Rheumatism.
"I suffered with rheumatism for two years and could not get my right hand to my mouth for that length of time," writes Lee L. Chapman, Mapleton, Iowa. "I suffered terrible pain so I could not sleep or lie still at night. Five years ago I began using Chamberlain's Liniment and in two months I was well and have not suffered with rheumatism since." For sale by all dealers.

NOTED WOMEN TO ATTEND BREAKFAST.

Washington, April 4.—A coterie of leading society women of the national capital has arranged for an elaborate breakfast to be given at Raucher's tomorrow to give the Washington official and unofficial circles an opportunity to meet the prominent women of the new administration. The guests of honor will include Mrs. Woodrow Wilson, Mrs. Thomas R. Marshall, wife of the vice president; Mrs. Champ Clark, wife of the speaker, and the wives of the various members of the cabinet. Mrs. John W. Kern, wife of Senator Kern of Indiana, will act as toastmistress. A reception, that those present may meet the honored guests, will be the concluding feature.

There is no case on record of a cough, cold or lagrippe developing into bronchitis, pneumonia or consumption after Foley's Honey and Tar Compound has been taken. The genuine is in a yellow package. Refuse substitutes. City Drug Store, J. A. Obermeyer.

GOVERNMENT EMPLOYEES WANT PENSIONS.

Washington, April 4.—The much-discussed plan to establish a pension fund for the benefit of the civil service employees of the federal government is likely to be given concrete form as the result of a conference which was opened in this city today. The conference, which will continue two days, is attended by representatives of every department of the government service. The chief task is to agree upon a plan that will be just and equitable to the government as well as to the employees. Some are of the opinion that the proposed pension fund should be supported entirely by appropriations from the government, while others favor a plan which provides for a fund supported partly by government appropriations and partly by deductions from the salaries of those benefited.

CONTROL AMATEUR FOOTBALL.

New York, April 4.—A proposal to form a national organization to control the sport of amateur football, on the same lines that golf, tennis and other branches of sport and athletics are now controlled by governing bodies, will be considered and acted upon at a conference to be held in this city tomorrow. The conference has been called by the American Amateur Football association, which now has a membership of more than 120 clubs from New York to Salt Lake City.

END LIVER TROUBLE WITHOUT CALOMEL

Untrustworthy Drug, Thought to Loosen the Teeth, Now Made Absolutely Unnecessary.

Dr. Edwards' Olive Tablets—the substitute for calomel—are the mildest but surest laxative known, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. Dr. Edwards has been calomel's uncompromising foe. His efforts to banish it brought out these little olive-oil-colored tablets, a rare combination of vegetable compounds mixed with olive oil. These pleasant, harmless little tablets do all the good that calomel does but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel at all, but to let Olive Tablets take their place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Olive Tablets when you feel "loggy" and "heavy." Note how they "clear" the clouded brain and how they "perk up" the spirits. At 10c and 25c a box. "Every little Olive Tablet has a movement all its own." The Olive Tablet Co., Columbus, Ohio.

THETA NU EPSILON SOCIETY.

New York, April 4.—The sixth general convention of the Theta Nu Epsilon society, the largest of the interfraternal organizations, began at the Hotel McAlpin in this city today and will continue over tomorrow. The attendance includes several hundred jurists, churchmen, educators and other men prominent in the professions. The convention will conclude tomorrow night with a banquet, at which a message will be read from ex-President Taft, who is a member of the society.

Recommended for a Good Reason

C. H. Grant, 230 Waverly St., Peoria, Ill., says: "Backache and congested kidneys made me suffer intense pains. Was always tired and floating specks bothered me. Took Foley Kidney Pills and saw big improvement after third day. I kept on until entirely freed of all trouble and suffering. That's why I recommend Foley Kidney Pills. They cured me." City Drug Store, J. A. Obermeyer.

CHAPIN.

At the Methodist Protestant church Sunday morning the pastor, Rev. Frederic Baylis, will take for his preaching topic "The Man Who Makes Good," and at the night service, "Play Ball." The great American game and the game of life. Every baseball enthusiast ought to hear this.

No Better Implements Made

PICTURE SHOW AND VAUDEVILLE AT THE GRAND TODAY

Today's picture program will include five of the best pictures known to the motion picture world.

"Mother"—Pathe's powerful feature in two reels.
"The Country School Teacher"—Lubin serio-comic picture.
"Her Bitter Lesson"—Selig Drama.
"Mrs. Lirriper's Lodgers"—Founded on Chas. Dickens' story of the same. Vitagraph.

VAUDEVILLE FEATURES

Be sure and see "The Great Kings" in "Fun in the Barn Yard." It's clever and laughable. There will be another good vaudeville feature too.

Special Saturday Feature

"Mother," a splendid Pathe two reel drama. The story tells of

"Mrs. Dawson, at her fireside reading a letter from her son, Tom, who has gone to make his fortune in the West. He is doing well, he says, having been promoted to foreman of the ranch. His mother replies, making him a present of a pair of woolen socks which she has knitted. Tom, a little the worse for liquor loses his job on the ranch.

The next morning he receives his mother's letter and his heart is touched. He will not tell her the news, but rather writes that he has been elected sheriff and that he will soon send her a present. He has no money and to get some he steals two horses. Suspicion falls upon him and he is forced to flee, pursued by the cowboys and the sheriff. His mother visits him and the developments are interesting indeed.

RETURNS FROM
TRIP TO PANAMADR. R. R. BUCKTHORPE VISITS
BIG CANAL.Traveler Notes Some Wonderful
Condition in Far Away Country—
Believes Big Ditch a God Send to
the World.

Dr. R. R. Buckthorpe, who has been down in South America inspecting the Panama canal, returned home Friday, after being delayed several days on the return trip by high water in Indiana. He was one of the members to join the excursion under the supervision of the Chicago Chamber of Commerce and the guests included some of the foremost men of the country, in all lines of business. Some of the men were Judge Kohlsaat, wife and daughter, Judge and Mrs. Tuttle and son Stanley, Warren Featherbone and son, Judge J. C. Garlow of Columbus, Neb.; George N. Hale, South Haven, Mich.; John H. Tourtelot, Palos Park, Ill.; Henry Friend, R. S. James, Riverside Drive, N. Y.; John L. Novak, Chicago; William A. Kerber, of the Kerber Manufacturing Co., of Elgin; Bishop Knight of the Episcopal churches of the islands, H. K. Snyder of this city was also among the hundred men who made the journey. The trip was supervised by A. B. Smith of the C. & E. I. railroad and he was a most capable manager. The party left Chicago on March 15, going via the C. & E. I. to Nashville, Palm Beach and Key West, thence to Colon, where a short time was spent, then on to Panama City and Acon. The only rough sea the travelers experienced was between Colon and Kingston, Jamaica. Dr. Buckthorpe stated last night that the journey could not have been more delightful and the company was thoroughly congenial. He comes home much refreshed from the trip. In speaking of the conditions of the country he said:

The entire party disembarked at the locks on the canal and personally inspected all branches of the work as far as they could see and understand. Reading of the subject only gives a meager idea of the stupendousness of the undertaking. The millions of tons of concrete and steel would have to be seen to be thoroughly appreciated. One fact in particular was the using of 135,000 steel rivets on the outer surface of one leaf of each lock gate, 6,000 on the inner surface. These gates are enormous structures of steel, operated by means of a large wheel lying parallel with the surface of the water in the canal, a long arm reached out to each leaf from each side, to open or close them at the passage of a vessel. The weight is so balanced that they are moved with the greatest of accuracy, the surface being covered on the middle part of the leaf by nickel steel, which is so accurately adjusted that on the first gate of the lower end of Gatun lake, that after having been closed for several weeks to allow the water to raise to the prescribed height of 57 feet, not a drop of moisture has shown upon the opposite surface.

SICKNESS UNKNOWN.
Standing upon the edge of the concrete walls and looking at the men working at the bottom of the canal at the locks, they look like pygmies, and being thousands of them employed upon this great undertaking presents a sea of industry beyond comparison. Gatun Lake has been raised to an extent that the lowlands have been flooded and some of the trees are already dying and stand there with the moss clinging to the limbs. But another great factor that impresses one, even with a great deal of this description, is the fact that sick new is nearly an unknown quantity. But our great government has made ample preparation in case of accident or disease, so that her subjects upon canalvessels are removed to Tobago Island on the Pacific side and give from one to three weeks at the hotel hospital there absolutely free of charge.

TOBAGO ISLAND HOSPITAL.
Tobago Island hospital is under the direction of Mr. Pratt, who is director of the hospital. Its broad verandas look out upon the sea, its menu is admirably adapted to the upbuilding of the men's constitutions. The government tug is employed in carrying the men back and forth, so as to save them any unnecessary expense that might be involved in taking this treatment.

PANAMA CITY COSMOPOLITAN.
Panama city is strictly cosmopolitan, a great many languages being employed, Spanish or Panamanian dialect being employed. Also quite a little French is spoken. Panama City is beautifully adapted for fortifications and harbor purposes, several prominent points of rock extending out into the Pacific which are now being prepared for the reception of disappearing guns and other means of defense. Before this point at Tobago Island is a small island owned by one of the deposed governors, Zalista by name, who asks \$4,000,000 from the U. S. government for it. But as its water supply consists of only two springs, both of which are supposedly poisonous, it would hardly be possible to employ it as a point of defense. These islands give one

the impression of being mountainous.

THE LEPER COLONY.

One pitiable spot is the leper colony several miles out on the west side of the harbor, where quite a few human beings are gradually drifting away. Some of them have their families with them, but when the families die so strong that they joined the loved ones on the island all is over with them and they can never return to the world again. The leper colony is in a little cove at the base of some high ridges and from the government tug we could plainly see the inhabitants moving around. They have some fine looking tropical gardens there and their cottages are all comfortable and clean but to pass from here to the dock and from there to the Tivoli hotel is only a matter of a very few minutes and there is certainly a number of interesting points about the Spanish houses and streets to keep one busy for a long time studying them.

FIND ANCIENT CHURCH.

I neglected to say on the Island of Tobago is a little church or cathedral, several hundreds years of age, and at the time of Buccanier Morgan it was visited by him and the parishoners called upon for a large donation to his illicit funds. Refusing to comply with his demands the priest of the parish acts as a mediator for his people and is beheaded by Morgan, who sends the head back with another demand for the money. Up in the corner of this church on the outside is a little space about eighteen inches square in which lies some bones, supposed to be the remains of the priest's skull.

COLONEL MAXSON BIG MAN.

Colonel Maxson of Miraflores dam force showed us every courtesy and we took dinner with him at the Tivoli hotel. He has spent a great deal of time in the canal zone, speaks Spanish very fluently and is a very forceful and interesting talker, upon the future of this great work and the surrounding vicinity. He tells me that thousands of men from different parts of the world are trying to get concessions in this new country, but thus far have been unable to do much. Upon all sides you hear great credit given to the broad mind of Colonel Goethals, who handles these people as if they were his own children and is trying to lead them into ways of thinking consistent with our big American ideas.

There seems to be quite a little antipathy toward Americans throughout the entire country, islands and all, and the reason why cannot be understood for America and her subjects have done more for them than any other class or nation in the world. They are living in affluence, where before they lived in poverty. Through General Goethals sanitary methods have been brought to the highest degree of efficiency. All streets are covered with oil, a spray of which is thrown upon all pools where the mosquitoes may develop and this has been a big item of expense to our government from the fact that 250 barrels of oil are employed daily, furnished by the California Oil company. Oil is also used in the engines. We were fortunate in being there when work was knocked off for the day and saw engine after engine pass us going to the yards for the night. A great many discouragements have happened, stratified formation in the Culbra formation being such that slides are very frequent. One involving 27,000,000 cubic yards of earth, another involving 20 acres, causing it to sink from 4 to 6 feet, only awaiting for further excavation at its base for it to slide into the big ditch.

UP-TO-DATE FIREMEN.

One or two things interested us particularly; they were the carriages and little ponies, not much larger than Shetlands, who are used to transport people from point to point for ten cents in gold, and using the term gold means American money. I had the misfortune to want to change a \$20 bill for which I received forty pieces of silver about the size of ordinary dollar, but I finally unloaded by spending it or exchanging with some of the guests of the hotel. The firemen here have a modern up-to-date gasoline truck and are dressed very gaudily. Imagine "Bill" Woods and Old Man Howard or Sam Hunt dressed in red shirts, white trousers, white caps and tan leggings. The people here are called "Spigotties." It seems to me that it comes from the fact that they knew a few words of English and you ask them if they knew spigot English.

CANAL A GREAT GOD-SEND.

But to come back to the canal subject again. If all the world were peace and there were no petty bickerings or strife of any kind, the canal itself would be the greatest God-send to humanity that has ever been conceived by the human mind. The months and months of labor employed are fully repaid to the merchants and naval marine by the saving of one trip's trip around the horn, which has cost the lives of thousands of men and destruction of millions of dollars worth of property. I personally do not think we should turn this great project over to the welcome, because no other nation in the world, in my opinion, could have done as much as we have done and spent as much money on such a project without materially crippling themselves financially.

PUBLIC LIBRARY BOARD MET.

A regular meeting of the public library board was held Friday afternoon. The usual routine of business was transacted. A resolution was passed by the board expressing appreciation to Father Crowe for the gift to the library of a de luxe edition of Chevalier de Montor's "Lives and Times of the Popes." Another resolution adopted complimented Miss Webster on the very successful series of lectures and addresses recently completed. The arrangements for the course involving an immense amount of work on the part of the librarians and the interest in and influence of the library were increased by the course. The librarians report for the month showed the following circulation figures:

General works, 14.
Philosophy, 21.
Religion, 84.
Sociology, 314.
Language, 9.
Natural Science, 133.
Useful Arts, 119.
Fine Arts, 92.
Literature, 258.
History, 130.
Travel, 114.
Biography, 125.
Fiction, 289.
Refr. Books, 271.
Periodicals, 196.
Bound Periodicals, 20.
Total, 4800.

Floreth Co.

Correct Shapes for Childish Feet

We want to emphasize the importance of using great care in the fitting of children's feet. We firmly believe to use proper care early in life will greatly lessen foot troubles later in life. We take great pride in our ability to fit the feet of children with the proper shaped shoes in a way they should be fitted. Why not trust the little feet to people who make a study of fitting, who specialize in this phase of shoe fitting?

Children's Slipper Styles

We have a very complete showing of the newest styles in slippers for the little feet. A very complete showing of straps, buttons, ties and sandals in the popular materials. Get used to our children's department; we entertain the children and fit their feet correctly.

MORTUARY

Jackson.
The remains of Earl Jackson were brought to the city Friday morning at 10:21 o'clock via the Wakabash from Springfield and were taken to the residence of his grandmother, Mrs. Elizabeth Jackson, at 733 North Prairie street, where funeral services were conducted Friday afternoon at 2 o'clock, in charge of Rev. W. L. Dorgan, pastor of the First Baptist church. Music was furnished by Mrs. Richardson and Miss Hayden and the flowers were cared for by Mrs. Osborne and Mrs. Reine.

Interment was made in the Jacksonville cemetery and the bearers were Ernest Pires, Emerson Lewis, Everett Long, Lawrence Redburn, Robert Nemith and Glenn Sooy.

Conlee.
Isaac Conlee, a well known resident of Carrollton and brother of A. D. Conlee of this city died Friday afternoon at 2 o'clock following an illness of several months. Mr. Conlee underwent an operation the fore part of December and since that time has been gradually growing worse.

He was born near Waverly and was 56 years of age at the time of his death. Prior to going to Carrollton the family lived at Roodhouse, where Mr. Conlee served one term as mayor. Later the family moved to Carrollton where Mr. Conlee served as sheriff and county clerk and was in the abstract business at the time of his death. He was also an express messenger for a while, on the Alton, running between Roodhouse and Jacksonville. He was a man widely known and highly respected. He was a member of the Masons, Elks and Modern Woodmen.

He was twice married. His first wife was Miss Nancy Taylor. To this union five children were born as follows: Mrs. Florence Postlewaite, Cecil, Charles, Herbert and Roy, all of Greene county. Mrs. Conlee died 21 years ago. His second wife who was formerly Mrs. Mattie Martin of Louisiana, Mo., survives him. He also leaves the following brothers and sisters, Mrs. Emma Dalby of Fisher, Minn., Mrs. Alice Murry of Roodhouse; Mrs. George Beauchamp of Chicago, A. D. Conlee of Jacksonville, Riley Conlee of Palmyra and John of Dallas, Texas. He also leaves his aged parents, Mr. and Mrs. William Conlee of Roodhouse and one stepson Jessie Mark.

His brother of this city went to Carrollton yesterday afternoon returning at night. The funeral services will be conducted from the Methodist church in Carrollton at 1:30 Sunday afternoon and a special train will take the remains to Roodhouse where burial will be made. The Masons having charge of the committal service.

If you are looking for an ALL WOOL \$15 suit you want to buy a Capps. They are great values. Breckon & Jenkinson.

INCREASED ALARM FELT

AT MEREDOSIA

(Continued From Page One.)

city hall and altogether fifty blocks of the city are under water. All of the people in this submerged section were not compelled to move as in some places the water is not very deep, but those who were compelled to move are being cared for by neighbors and in government tents. Probably the greatest property damage is at the Franks Brothers green house, all of the flowers and plants that are not high up, being destroyed. Five blocks of Fourth street are covered with water ranging from 6 to 8 inches deep.

The men working on the levee protecting the Christie & Lowe lands across the river, have not given up hope, and if the weather is at all favorable they expect to be able to hold the levee. Railroad trains are still moving but somewhat delayed on account of the water endangering their tracks.

Lieut. Harmon Tells of Flood.
In speaking of the flood conditions at Meredosia Lieutenant Harmon said:

"At present there are about 60 members of Co. B, of this city and Co. F, of Quincy at work on the levee and with the addition of the Champaign company and the remainder of the men from Quincy this city there will be approximately 125 guardsmen on duty. Just as I was leaving for this city to muster the remainder of our men, Colonel Wood of Quincy, who is to take command of the troops, arrived in Meredosia and he accompanied by Regimental Adjutant Kilbourne of Quincy, Chester Goveia, a member of Company B, reported for duty at Meredosia Friday night and there are still about twelve men here to secure. Lieutenant Jellison was sent back to Quincy to get the Co. F men and Quartermaster Sargeant Burke accompanied me here so that the men can get their equipment at the armory."

"The militiamen have been living in box cars in Meredosia, sleeping on the bare floor of the cars and without anything excepting their blankets. Friday night they were provided with straw to sleep on and the tents arrived Friday evening I expect that camp will be organized today."

"The men are taken to and from the levee in a government launch that has been brought there for that purpose. The levee is divided up so that Co. F has all south of the Wash bridge and assists our company with a part of the levee north of the trestle."

"To strengthen the levee large wheat sacks are filled with sand on the Meredosia side of the river and brought to the levee on barges that are pushed by launches. The bags are stood on end and the barges are pushed along side the dike and then the bags are placed ends down, on the side of the levee by the laborers and guardsmen."

"When a driving rain started to fall Thursday afternoon all of the laborers quit work and went to their bunk cars, leaving the militiamen and property owners there to work alone. Our men kept at work all through the rain, piling sandbags on the levee and doing their best to keep the water from coming in."

"Friday night there were sixteen men, eight from each company, patrolling the levee. The company B men were in charge of Corporals Shepard and Flynn and they will be relieved from duty Saturday morning at 11 o'clock, when sixteen others, or if the other company arrives in time probably more, will go on duty. Company B's part of the levee seems to be the weakest. A place between four and five miles north of the Wash tracks, which is the weakest of the weak spots, is strung with sacks for a distance of perhaps 300 yards, and the center of this place seems very weak. The men do not fear an overflow so much as they do the undermining of a portion of the levee. There is a certain amount of seepage through the dike all of the time, but no alarm is felt until a sort of spring starts running with muddy water at a distance of from 5 to 10 feet from the top. This is something that cannot be guarded against and when one of these muddy streams start through it is not long until a large hole is cut through and then a large strip of the levee is washed away. This is what broke the levee north of Meredosia on the east side of the river and those who saw the break say that the first hole was probably a yard wide, the second three yards wide and the next seemed to take a piece of several rods."

"I expect to get the rest of company B together this morning and we will return to Meredosia this afternoon at 5:13 o'clock."

Vasey and Dickson Return.
Richard Vasey and Harrison Dickson, both members of Co. B, I. N. G., returned to the city from Meredosia Friday night and will go back to that place for guard duty this morning at 7:06 o'clock."

In speaking of the duties of the national guardsmen in the flood district Mr. Vasey said that the men were on duty 24 hours and off 48 hours, which accounts for his getting permission to come home for Friday night in order to get his boots and clothing. "Friday night I was corporal and under me were Paul Strawn, Lloyd Tendick and Williams and the four of us patrolled a part of the levee north of the Wash tracks. We stretched our tents on the highest part of the levee and when one man went to the end of his beat and back he would get his partner out of the tent and rest while he was patrolling."

Thursday night was very cold, a light mist falling and the wind from the west was unusually strong. We had to tie our tent to trees, as the wind was so strong that the stakes would pull out of the ground. We also had to sit on our hats and blankets in order to keep them from blowing away. Each of the men patrolling the levee is furnished with a lantern, which it is necessary to use at night in order to see where you are stepping."

"This McGhee levee, which the two companies are working on, is about 12 miles long, about half of it being in Pike county and half in Brown county. Forty families and 25,000 acres of land are protected by this levee. The structure is not of a uniform height, nor width, some places being three feet wide and others less than half that. The north end, where our company is located, is the weakest part."

MRS. OLSON ADMITS

ILLICIT RELATIONS
(Continued from page one)

trained the weapon upon one of the jurors and stepped slowly forward.

He hesitated a moment then quickly retreated and pulled the trigger of the empty gun. The defense has contended that Darling started toward Olson and that the latter fired to save himself.

The strain of eight hours on the stand and the rigid cross-examination to which he was subjected had a telling effect upon the defendant and he leaned heavily upon the arm of his attorney when leaving the court room. Dark rings have appeared under his eyes and his voice has lost its sternness which was so noticeable during the first hours of his testimony. His physician, however, is not apprehensive of a nervous breakdown, it is said.

SUFFRAGE FOR WOMEN DISCUSSED AT PUBLIC LIBRARY

Mrs. Ella K. Stewart Made Strong Argument for the Ballot for Women.

Mrs. Ella K. Stewart of Chicago, a director of the Illinois Equal Suffrage association, in her talk Friday evening at the open meeting of the Jacksonville branch of the association at the public library told of the increasing need for women in politics and refuted many of the old stock arguments against equal suffrage. She stated that the movement for the enfranchisement of women is a manifestation of two things—the rising tide of democracy and the emancipation of women along all lines. This meeting was well attended and the talk of Mrs. Stewart highly appreciated.

Mrs. Stewart told first of a large suffrage parade she witnessed in 1906. Led by such women as Mrs. Fawcett, the head of the advocators of constitutional suffrage reform, and the venerable Mrs. Emily Davis, who has devoted a large part of her eighty years to the cause, this procession contained women of all classes, daughters and wives of peers marching democratically with shop girls and scrub-women, professional women and ladies of leisure giving the place of honor to poor chain-makers who labor for a dollar a week.

"As I watched this huge demonstration I thought of the principles for which these women stood. I thought of the oppression of weak and helpless children soon to end, of the deep-seated social wrong soon to be swept away. It seemed that they were marching toward a better day, toward a land of better homes, toward the all important task of making the world a better place in which to live."

A WORLD-WIDE MOVEMENT.
When I crossed the channel to attend a meeting of the International Woman's Suffrage association I saw that the movement for the emancipation of woman is truly world-wide. I met representatives from sixteen nations. Women from the smaller, more backward nations, I found fully responsive to those lofty sentiments of human justice for which my own ancestors had suffered and died. I heard reports of the work of progressive, wide-awake, defying and traditions of the conservative east. Chinese women opposing foot-binding and Turkish women walking the streets without a veil. I felt the true significance of the movement. I saw the divinity of humanity, the spirit of God working through the human soul. I realized the advance of woman to be a logical part of the world-wide spread of the growth of woman herself in all lines of human endeavor."

CRITICS ANSWERED.
"In view of the increasing number of women in industry I think the question of the critic 'who will rock the baby when mother goes to vote' should be changed to 'who will rock the baby when the mother goes to work.' Women themselves have no fears that enfranchisement will cause neglect of their home. It seems to be the prejudice of men who fear that the vote will deprive woman of her womanliness."

QUESTIONS ANSWERED.
After her regular talk, Mrs. Stewart took some time to answer questions. She described the suffrage parade at Washington and gave an account of the militiamen in England.

THE KINDEL KIND

DAVENPORT BEDS and Divanettes are the latest and best Davenport beds produced, and one of the most useful articles ever offered for the home. We have just received a large shipment of these in all the finishes, and it would afford us much pleasure to show you their merits and tell you why they received the highest award for Davenport beds.

Kindel
Need not be moved from the wall.

The back simply rolls forward.

Kindel

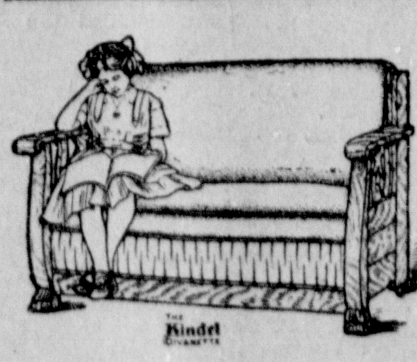

Kindel
Has a roomy wardrobe under seat.

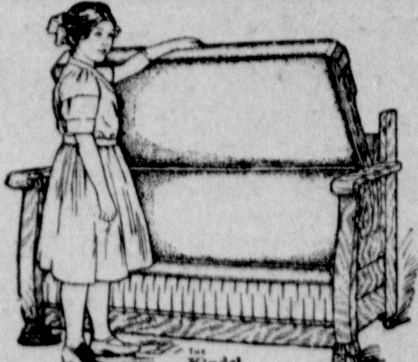

Kindel
A luxurious full-size sanitary bed

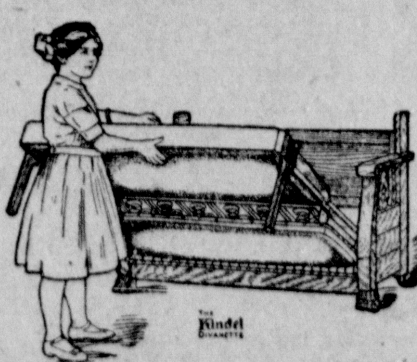

UTILITY—Always ready. Can be changed from Perfect Davenport to Perfect Bed without removing from the wall.
CONVENIENCE—Can be readily taken apart for moving, and is easily set up again.
SIMPLICITY—So simple that a child can operate it, and there are no complicated parts to get out of order.
SPRINGS—A bed can be no better than its springs, hence we use only the best oil-tempered steel wire "Long Cone Coils."
UPHOLSTERY—Is protected by cushions automatically reversing bringing mattress uppermost as bed.
FILLING—Mattresses and cushions are filled with Kindel's hygienic felt. Comfortable and durable.
BEDDING—Always in place, concealed from view during the day, but is ready for use at night.
ECONOMY—It costs no more than the antiquated Davenport, nor as much as the ordinary bed of equal grade, notwithstanding its unquestioned superiority.

Kindel

Kindel

Kindel

Kindel

The KINDEL Divanettes are made with a reclining back, comfortable spring edge seats, luxurious upholstery, splendid proportions and do not require the space for the ordinary Davenport.
